

COL. C. W. GURNEY

Founder . . 1840-1913

Pioneer seedsman and nurseryman of the Northwest. Col. C. W. Gurney began his life work in the seed and nursery business upon leaving the service in the Civil War. Almost the entire last fifty years of his life were devoted to making this midwest a better place to live in.

2nd Generation GEO. W. GURNEY

Freudent
For over 50, years one of
the leading nurserymen in
the northwest. His lifetime
experience with seeds and
trees is yours for the asking.
Write if you have any problems, and he'll see that you
get a prompt answer. George
is still petite in the business
and the seed to continue for
a long time.

3rd Generation

he can.

Many of you probably enjoy
his "Planter" program on Saturday mornings at 9:15 when he
spends 15 minutes answering
questions on gardening.

4th Generation IIM AND JAY GURNEY

These are Sid's two boys. Jim is 12 and Jay is 4. A little too young to be in the business, but they really love to go out in the nursery with their Grand-dad. They never seem to get enough of those fresh apples and plums from

## It Always Pays to Order GURNEY'S Northern Grown, Rugged, Climate-Conditioned Nursery Stock

#### If We Raise It Here in South Dakota's Rigorous Climate, You May Be Sure It Will Do Well for You!

It stanks to reason that our nursery stock—raised right here at Yankton—has the extra vigor and hardiness to stand the hottest of summers and coldest of winters. If it isn't able to take our climate, we just don't have it to ship. This means you can depend on Gurney's hardy stock to do well for you. It starts quickly and has the extra vigor necessary to get itself established firmly and make lots of growth the very first season.

#### True-to-Name

Regardless of whether you order seed, nursery stock, or chicks—it will be true-to-name. We have been in this business for over 88 years, and we intend to be in it at least that many more, so we are not going to start now to try to fool our customers. It can't be done, and we don't intend to try it.

#### State Inspected Stock

All nursery stock shipped from Gurney's carries a state inspec-tion label that certifies our stock has been inspected and found free from disease, insects, etc., and has passed all state laws as to quality. We want you to have the very best possible.

#### Place Your Order Early

If possible, please order in January or February. This gives us plenty of time to get your order booked and all ready for shipment the moment the weather breaks in your locality. Early-planted stock does better because it has a chance to take advantage of early moisture and get established before the hot, dry period.

#### **How to Make Remittance**

Your check is good with us here at Gurney's. In fact, to make it easier for you to order, you will notice we have put a check blank on the bottom of every order

blank. You are welcome to use it, or, if you wish, a bank or money order will be fine. We do not encourage cash payment; however, if you insist, please register your letter for your own protection. It is embarrassing to both of us when cash is lost, and there is you sent the cash and it never reached our organization.

#### Please-No C.O.D.'s

One of the reasons we can sell better goods at lower prices is because we do not maintain an expensive department to handle C.O.D.'s, Anytime you order something C.O.D., you have to pay the post office's C.O.D. charge. Why not save that?

#### How We Ship

Most items, such as garden seed and merchandise, are shipped at once. Nursery stock is shipped at the proper planting time in your locality—and that is why we may fill your order in several ship ments. Most nursery stock is quoted the post post at zone 4 see back of order envelope). Exceptions are so noted in the catalog and generally include stock too big to ship parcel post, such as big trees, B&B Evergreens, etc. Items quoted "Express Not Prepaid" will be sent transportation collect. List your nearest Express Station on your order.

#### Extra Payment In Nursery Stock

Many times we have to ship postpaid items with nursery stock going express collect. To help make up for our share of the express charges, we put in extra nursery stock—always more than enough to make up for the additional postage. This doesn't hapen too often, but when it does we always go out of our way to see that the customer gets his money's worth and then some.

This picture gives you a view of our main office building, the corn processing elevator, and part of the field seed mill. have the latest modern equipment to assure you of the best seed money can buy.

## 

## Gurney's Nursery Stock Guarantee

We also guarantee our stock to be absolutely true-class in guarantee our stock to be absolutely true-class in the property of the prope

## 

#### FREE GIFTS WITH YOUR ORDER!

It takes lots of old-fashioned courtesy to maintain a friendly business. That is the reason we make it a practice to include a free gift with every order we receive. We won't tell you what that gift is going to be, but we know it is going to be something well worth-while. Hope you enjoy it, as it is our way of saying "thank you" for the fine order.

#### Hello Folks:

It doesn't seem to me like another year has already gone by. Time certainly flies and the older I get the faster it goes. I get a lot of satisfaction, though, out of looking back over the 70 odd years that have passed. Don't believe I'd try to change things too much if I had it to do all over again.

A Message from Geo. Gurney

Jan. 2, 1955

Of course, we must all try and do our best to keep up with the times. That is why we folks here at Gurney's are always on the lookout for new things to put in the catalog each year—and we've added lots of them this year too.

We had a fine growing season here at Yankton last year and the nursery never looked better. Think you will find most nursery stock runs a little stockier than average.

Grass seeds and some of the legumes are a little on the short side so I'd suggest you take care of your needs early this spring.

Again let me wish all you good friends and customers the best of everything in 1955. If I can help you in any way possible just drop me a line, and don't forget Gurney's for your Seed, Tree and Baby Chick needs.

Thanks to all of you, Geo. W. Gurney

P.P.S. Oh yes, I forgot to mention that we are headquarters for hardy, northerngrown nursery stock. We know what varieties will do well in this country, and that's the only type we offer.

## From the GURNEY MAIL BAG

Mr. O. H. Peterson of Quamba, Minn. and a 7 ft. Gurney tomato plant. Mr. Peterson said this plant grew 6 to 8 ft.

We are pleased and happy to have dealings with you.

Russell M. LeVell Newport, Minn.

Here is Mrs. Lydia Scott of Verona, Mo. She says, "Thanks for the free Bush Cherries that came with the other fruit trees.'

Dear Sirs:

I received my mums in the morning mail and want to thank you for putting them up in such good condition. were perfect.

Mrs. F. L. Botts Loveland, Okla.

This is Miss Juna Butzler, niece of Mrs. Theo. Berendt of Ne koosa, Wis. Mrs. Berendt writes the pumpkin weighed 30 lbs. the squash 35 lbs. while the cuke was 14 inches long

Lumir Bruha of Burwell, Nebr. and a 45 lb. Gurney watermelon. Lumir is the son of Mrs. Bessie Bruha, who has been a steady Gurney customer for years.

Onion plants came today. Excellent plants. Delighted with your service.

Rev. C. N. Hamrin Minneapolis, Minn.

Gurney's:

The Flame Violet arrived on Saturday in

perfect condition. are delighted with it. Thank you for explaining the delay. Mrs. Bessie P. Bowmer

Richmond, Indiana

Dear Sirs:

A line to let you know I got my plum trees all in good shape. Thanks for the extra Sand Cherry trees.

Clyde Cramer Nunn, Colo.

Mrs. Otto Gabriel of Milwaukee, Wis., sends this picture (we presume it's her daughter) and some Gurney Sweet Span-ish Onions. Some weighed better than 2 lbs.

#### WE WANT YOUR PICTURE

We always like to include a few pictures of our customers when we make up a new catalog. If you have a good snapshot of yourself or anyone in the family. Received my Flame Violet in fine shape yesterday. Never received one done up so nicely.

Mrs. A. C. Knauer Cleveland 21, Ohio

152—(62 days.) If we could have but one kind, it would be Little Marvel. Take our word for it. We've tried 'em all—

for it. We've tried em all-very tender, heavy yielder, and it will be a long time until we find a better one. In yield, earliness, quality and delicious sweetness it is tops. Fine for

Triple size pkt. 15c;  $\frac{1}{2}$  lb. 32c; 1 lb. 55c; 3 lbs. 1.19, postpaid.

#### BLACK EYED PEAS

168—These are the old-fashioned kind that are so popular in the south, but we northerners think they are pretty good too. Use them green in the summer and dry them for use like beans in the winter. Triple size pkt. 165; ½ 1b. 30c; 1 lb. 50c; 3 lbs. 1.12, postpaid.

Hello Folks:
You are starting the Garden Seed section of our catalog and will find 10 pages of the finest garden seed money can buy. Fresh, tested, new-crop seed we are proud to call "Gurney Seed." I know you will like the results you get.

Geo. W. Gurney

## **Gurney's Bigger Yielding** GARDEN PEAS

Gurney's strains of peas are all Northern-grown and carefully selected for disease resistance, type and vigor.

Plant smooth varieties of peas as early as you can get them in the ground in the spring. Plant wrinkled varieties a week later. Peas appreciate support; even dwarfs like some brush or

For continuous supply make several plantings, starting with Extra Early Alaska, Little Marvel, Big Dakota and Yankton Main Crop.

1 lb. of peas is enough for 100 ft. of row.

## The Drouth-Resistant Pea

157-(65 days.) Plant Yankton Main Crop and have green peas all season and of the finest, sweetest quality and tenderness that you have ever tasted.

Jou nave ever tasted.

Is absolutely the most drouth and heat resistant of all. The vines grow about 2 feet tall and are filled with large pods containing from 6 to 10 delicious peas.

Triple size pkt. 15c; ½ lb. 30c; 1 lb. 52c; 3 lbs. 1.17, postpaid.

#### Extra EARLY ALASKA

#### Dise ase-Resistant

Disease-Resistant

146—Earliest of All. (52
days). Alaska is absolutely
the earliest pea and the
heaviest ylelder. The slender
light green vines grow about
2 feet tall and are literally
covered with pods. The peas
are of excellent quality, and
as they all ripen at once, are
easy to gather. If you want
a lot of peas and want them
early, plant Alaska.

Triple size pkt. 12c; ½ b.
28c; 1 lb. 48c; 3 lbs. 1.05,
postpaid.

mound

Here's the answer to the question "What shall I put in the free ze box?" These vege tables are among the very best for freezing: Directions included with each collection. ALL FOR ONLY 1.69 ppd. No. 600x

TENDERSWEET

Best Sweet One

Best sweet the 635—(75 days.) We don't know of a sweet-er, better carrot than Tendersweet. It is coreless, fine textured and a beautiful deep orange. If you like car-rots and want to try new, tastier, better va-riety — be sure and

new, tastier, better va-riety—be sure and plant Tendersweet. We consider it one of the

Pkt. 15c; oz. 50c; lb. 1.45, postpaid.

#### AMERICAN WONDER

### Sure Grower-Big Yields

149—(60 days.) Our improved strain of American Wonder is one of the earliest Wrinkled Peas grown. The dwarf vines grow about 1 ft. tall and are covered with medium size pods.

This is one of the sweetest and tenderest peas we have ever raised. If you want qual-ity, plant American Wonder.

Triple size pkt. 15c; ½ lb. 29c; 1 lb. 49c; 3 lbs. 1.12, ppd. Gurney's VEGETABLE FREEZER SPECIAL

mound

1/2 lb. Sweet Cross Hybrid Sweet

Pkt. Broccoli, Green Sprout-

1/2 Ib. Sweet
Corn.
1/2 Ib. Little Marvel Peas
1/2 Ib. Victory Freezer Peas
1/2 Ib. Cherokee Wax Bean
1/2 Ib. Topcrop Green Bean
1 Pkt. Swiss Chard
1 Pkt. Coreless Carrot
1 etc. Brancoli, Green Si

#### LAXTONIAN . . . Vigorous, Sure to Bear

141—(64 days.) The ton. notch early pea. This is a pea that just sults us, and we eat lots of peas during the season. We like them any way they can be served.

The vines of this large, extra carly, heavy bearing pea are very stocky, dwarf

and vigorous. The pods are long, dark green and simply bursting with 1 m m e n s e, sweet, tender, high quality peas. Excellent for home gardens and freezing.

Triple size pkt. 15c; ½ lb. 29c; 1 lb. 49c; 3 lbs. 1.12, postpaid.

SPECIAL:

Be Sure to Inoculate Your Peas for Extra Yield

A 15c packet of Nitragin is enough for 5 lbs, of peas and beans. Full directions for use are printed on the packet. It will pay for itself many times over. No. 4015—15c, post-

## Eat Like Pod Beans

160—Dwarf Gray Sugar: (57 days.) The pea with pods so juicy and tender that you do not shell them but instead eat pods and all, like string beans.

The vines grow about 20 inches tall and are heavy bearers. Give these a trial, and we know you will never be without them again.

we know you will here again.

Triple size pkt. 15c;  $\frac{1}{2}$  lb. 32c; 1 lb. 52c, postpaid.

## Early WRINKLED ALASKA

WRINKLED ALASKA
Tender, Tiny Peas
159—(55 days.) The new
wilt-resistant pea. The easiest way to describe this one
is to say it is like Early Alaska, except its peas are somewhat larger and wrinkled. It
comes into bearing in 55
days; the vines grow just
about 2½ to 3 feet tall and
are fully as hardy as Alaska.
We are sure you will like this
canning variety — Fine for
table use, too.
Triple size pk. 15c; ½ to
30c; 1 lb. 48c; 3 lbs. 1.12,
postpaid.

## BIG DAKOTA, Big Yielder for the NORTH

144—65 days.) You want the most peas you can get, don't you? Then plant Big Dakota, because by actual count we have found that they yield more pods to the vine and more peas to the pod. They are of delicious quality, and luscious tasting, and if you want the largest peas you have ever raised, plant Big Dakota. One of the finest for freezing.

Triple size pkt. 15c; ½ lb. 30c; 1 lb. 52c; 3 lbs. 1.17, postpaid.

#### EARLY CORELESS for Home Use or Market

ing

634—(70 days.) Beautiful carrots about 8 in. long 1½ in. thick, and the same size top to bottom. Flesh scarlet-orange. Very sweet, fine grained, tender, nearly coreless. Fine for bunching, for winter or freezing.

Pkt. 10c; oz. 38c; ¼ lb. 1.15, postpaid.

#### STOCK CARROT

## Gurney's CARROT

### **Carrots Are Easy to Grow**

Make your first planting just as soon as you can get in the soil in the spring and then successive plantings throughout the season so you will have plently to put away when winter comes. Cover seed about ½ in. deep. Have rows 18 to 24 in. apart and thin out 2 to 4 in. apart in the row if you want big carrots. Keep your carrots well cultivated at all times for best results.

#### DANVERETTE, A New and Better Carrot

628—(70 days.) A smaller, more refined type of Danvers Haif Long. Has a beautiful deep orange color and the quality is excellent. Dandy for freezing and canning. This is one of the newer varieties that is fast gaining in popularity with gardeners everywhere. Try it. Pkt. 15c; oz. 50c; 1/4 lb. 1.45, postpaid.

#### OXHEART the Heaviest **Yielding Blunt One**

Yielding Blunt One \$29—(75 days.) This short, broad carrot is the heaviest yielder of the ta-ble carrots, and the easiest to harvest. The roots are sometimes 5 inches in di-ameter and about the same length. An excellent table carrot as quality is fine. Highly nutritious and a good keeper. Pkt. 10c; oz. 34c; 1/4 lb. 98c, postpaid.

#### Red Cored CHANTENAY Tender and Sweet

## MONEY-SAVING CARROT OFFER Here's an offer of three of the best car-rots on the market.

Pkt. OXHEART— the early one. 1 Pkt. DANVERS HALFLONG— most popular.

1 Pkt RED CORED CHANTENAY— new and better. 250X-All 3 for 27c, postpaid. Tender and Sweet.
630—(70 days.) Small cored, with bright orange flesh, fine grained, tender, crisp and sweet. It is medium early, maturing in about 70 days. The tapering roots are about 6 inches long and 2 inches in diameter and easy to pull. May be grown as spring, summer or fall crop. We think this one is about the best, most delicious of all the carrots we are offering.

Pkt. 15c; oz. 48c;

Pkt. 15c; oz. 41 1/4 lb. 1.25, postpaid.

627—(75 days.) Medium in ength and of rich orange color. One of the finest quality, best tasting carrots. Outyields almost any other variety. One of our best storing and canning varieties.

Pkt. 10c; oz. 38c; 1/4 lb. 1.15, postpaid.

631-(100 days.) Mastodon. Produces tons of feed per acre for stock. Easy and profitable to grow. Pkt. 10c; oz. 35c; 1/4 lb. 1.10, 35c; 1/4 lb. 1.10, postpaid.

#### KING OF THE NORTH

THE NORTH
Early Large Sweet
640—(65 days.)
The newest and
earliest large pepper, especially valuable in the northern states. Fruits
enormous, color is
brilliant red when
ripe, size usually
three or four in color
en diameter. Thick
flesh, very firm,
sweet and mild.
Pkt. 15c; ½ oz.
40c; i oz. 65c,
postpaid.

The Earliest
645—644 days.)
This extra early pepper has the best record of any in our gardens. Short, broad, this extra early pepper has the best record of the first state of the first

Peppers are what help keep the Mexican people healthy. They're full of vitamins, and every gardener ought to raise his own. Like any soil except low, wet land. Give plenty of room. Handle and plant Just like tomatoes. It is a real treat to watch the big, luscious looking peppers grow and develop in your own back yard. Easy to raise tool

### EARLY PIMENTO

Sweetest of All 644—(65 days.) The tomato-shaped pepper. Fruits round, flat shaped. Deep red. So mild and sweet you can eat like apples. Fruits grow upright on strong 2½ ft. plants, and beautiful. Your garden should in-clude these sweetest of sweet peopers.

## CAYENNE

CAYENNE
6 48 — (72
days.) The true
Cayenne. Long,
red and hot. Fruits
are a full inch or
more in diameter
at the shoulder
and 4½ to 6 in.
long. For cauning,
drying or pickling.
Grows anywhere.
A sure yielder. A sure yielder. Pkt. 12c; ½ oz. 35c; 1 oz. 65c, oostpald.

A pound will plant 2 rows, 50 feet long. Cover beans about 2 inches. Space rows 20 to 30 inches apart in rich warm soil. Make first planting when severe frost danger is past. And remember to buy a few extra poinds of beans to use later in the season as a "fill in" crop. Whenever an early crop like radishes or lettuce is done with the ground, put in another row of beans. Be sure to treat peas and beans with garden Nitragin. See below.

### Notice!

All beans, peas and sweet peas should be inoculated with NITRAGIN for bigger yields,
Just dust it on sease,
Never faits to increase,
yields. 4015—NITRAGIN, 15c per pkt., postpaid.

#### WAX BUSH BEANS

The only difference between Wax Bush Beans and Green Bush Beans and Green Bush Beans, aside from coloor, is that the Wax type has a more delicate, milder flavor and the pods are a little more tender than the Green type. The Wax beans yield just as heavy, are stringless heavy, are stringless and require same cul-ture and care as the Green. If you have never grown the Wax before, try some by all

#### TENDERGREEN The Dark Green Canner

The Dark Green Canner
106—(55 days.) A new
green podded bush bean.
Enormously prolific and
stringless. Bears beans
more tender than any
ound dark green Finest
eating qualities. Plants
are of strong upright
dwarf growth. Combining
productiveness and hardiness with highest quality.
Splendid for canning.
Triple size pkt. 15c; ½ lb.
35c; ! lb. 60c; 3 lbs.
1.45, postpaid.

Green Bush Beans are so easy to grow and are so tasty that every family with any ground at all should plant some. Beans are tender, brittle, Juicy, entirely stringless and of fine flavor. Plants are of spreading bush form and are enormously productive. Sow seed about every two weeks for constant crop.

#### STRINGLESS GREEN POD The Early Favorite

The Early Favorite

107—(50 days.) This
extra early dwarf green
pod bean is a very heavy
bearer. The medium-size,
meaty, green pods are absolutely stringless and of
excellent flavor. Will
stand more drouth than
any other variety. The
seed is dark brown and
pods are excellent quality.
Orispies size pkt. 15c; ½ ib.
35c; 1 ib. 60c; 3 lbs.
1.45, postpaid.

#### BRITTLE WAX

110-(50 days.) Clear, waxy yellow pods, 6 to 61/4 inches in length are ab-solutely stringless, very tender and most delicious. Vig-orous vines give a long bearing sea-son. We find Brittle Wax one of the finest for home, mar-ket, freezing and canning. Triple size pkt. 15c; ½ lb. 35c; l lb. 60c; 3 lbs. 1.45, postpaid.

## New CHEROKEE WAX

The Earliest of All

The Earliest of All 118—(50 days.) Developed by the United States Department of Agriculture. This is the earliest of all beans and one of the very best. It is straight and stringless, with bright yellow pods 6 inches long. Does well almost anywhere. Heavy bearer. Black seeded. where. Heavy bear-er. Black seeded. Flesh is thick, crispy, tender, stringless and of good flavor. Triple size pkt. 17c; ½ lb. 40c; 1 lb. 65c; 3 lbs. 1.65, postpaid.

## PENCIL POD BLACK WAX

The Heavy Yielder 105-(55 days.) A wonderfully fla-vored, rich dark yellow, stringless snap bean. It is a very vigorous and hardy plant, being one of the few to one of the few to survive heat and, lack of moisture of extremely hot sum-mers. The seed is black when ripe. Extremely good for Triple size pkt. 15c; ½ lb. 35c; 1 lb. 60c; 3 lbs. 1.45, postpaid.

## Improved GOLDEN WAX

Heavy Yielder-Good Canner 116-(52 days.)

This extra early wax bean is one of the best for the straight, waxy yel-low pods absolutely stringless. Heavy bearers of delicious quality beans. Excellent for canning or pickles. One of year. Triple size pkt. 15c; 1/2 lb. 35c; 1 lb. 60c; 3 lbs. 1.45, postpaid.

## LIMA BEANS

Every one should plant a few Lima beans. Be sure not to plant until all frod danger is past and soil is warm. Plant seed 6 to 8 inches apart in rows 2 to 3 feet apart. We have the two best varieties for flavor, quality and yield. Better try a few Limas this season. Treat all Lima Beans with Arasan (see page 25).

### **New Improved** BABY LIMA

#### Fine for Freezing and Canning

129—(67 days.) A real improvement over the old-fashioned Baby Limas. Beans are bright green during shelling stage. Fine for canning, good for dry beans, too. An excelent grower, stands hot dry weather. Tremendous yielder. Triple size pkt. 15c; ½ lb. 35c; 1 lb. 60c; 3 lbs. 1.45, postpaid. Treat all Lima Beans with Arasan. See page 25.

## FORDHOOK BUSH LIMA

TORDHOOK BUSH LIMA
The Early Big Bush Type
126—(75 days.) The very best
large seeded variety. The pods,
which are produced in large clusters, are about 5 inches long, each
containing four to five large beans
of exceptionally fine quality. Beans
are large, thick and of delicious
flavor. Grows very upright, holding
beans out of the dirt. Triple size
pkt. 17c; ½ ib. 40c; I ib. 65c;
3 ibs. 1.65, postpaid.

## MIDGET VEGETABLES

Here is an assortment of spe-cial varieties for a complete gar-den in the smallest backyard. These are all honest-to-goodness practical vegetables; even in a large garden. Every one of them is tops in quality. Lots of fun to grow, too.

TINY TIM TOMATO 425—Most gardeners like this as a novelty but it is practical, too. Plants grow about 15 inches tall, and are covered with three-quarter inch tomatoes. You can grow them in a porch box, if you like. Tomatoes are brilliant scarlet and good flavored. Packet 25c; 2 for 39c, postpaid.

140-Another midget from the New Hamp-shire Experiment Sta-tion. Seeds are small in time and white in color. Tiny and sare about a third of a normal green pod bean. The flavor is unbellevably good. Packet 35c, postpaid.

TINY GREEN

REANS

#### BABY CUCUMBERS

360—Just right for pickles. Cucumbers are about 4 in ches long, crisp and of good quality. Vines inclined to be bushy. Early and very productive, too. For uniform pickles you will like this one. Packet 15c; 2 for 25c, postpaid.

## MIDGET SWEET CORN

170-The tenderest, most flavorful and the sweetest sweet corn of all. Ears about 4 inches long, golden yellow in color, stalks about 2½ feet tall. Very early. Packet 25c; 2 for 40c, postpaid.

504 — A miniature head lettuce just right for individual salads. A bout the size of a tennis ball. Heads are solid, crisp and tender. Quality extra fine. Can be low boxes, as well as 2 for 25c. postnaid.

grown indoors in window boxes, as well a outdoors. Packet 15c; 2 for 25c, postpaid.

SPECIAL MIDGET VEGETABLE OFFER

erything for that Midget Vegetable Gar-den. 1 packet each of the above 6 vegetables for only 98c, postpaid.

## Gurney's Choice TOMATOES ILLUSTRATED AT RIGHT

Probably no other vegetable is as popular as the Tomato. We are offering only the very finest varieties of hybrids and regular types. You will find what you are looking for at a fair price.

are looking for at a fair price.

## LETTUCE

## All America Winner

500-(75 days.) This high quality head lettuce has practically revolutionized the lettuce-growing industry. Heads every time! Stands heat and is resistant to sunburn. An outstanding, white - seeded head lettuce that is excellent for home gardeners. A terrific yielder.

Pkt. 15c; ½ oz. 35c; oz. 65c, ppd.

#### - - CRISP AS ICE The Earliest Head Lettuce

501—(85 days.) One of the finest and earliest varie-ties of head lettuce grown. Give plenty of room and it will grow very large. Leaves are silvery green, good for spring or early summer. Fla-yor excellent.

Pkt. 10c; 1/2 oz. 24c; oz. 42c, postpaid.

#### **New York Wonderful** The Standard Head Lettuce

507—(85 days.) Thousands of acres of this wonderful head lettuce are grown in California, Idaho and New Mexico and shipped to the eastern markets. When you buy an extra-good head of lettuce, it probably is New York Wonderful.

Pkt. 12c; 1/2 oz. 27c; oz. 47c, postpaid.

#### . . Black Seeded Simpson

Most Vigorous Grower

509—(45 days.) A favorite forcing variety. It does not head, but forms a compact mass of leaves, lighter colored than any other leaf lettuce. Stands the summer heat well, and is very large, making immense plants over a foot across.

Pkt. 10c; 1/2 oz. 24c; oz. 42c, postpaid.

## .. STONEHEAD Thick and Heavy Head Lettuce

502—(84 days.) All of us like head lettuce, and our idea of a good head lettuce is the one that has a solid head, is compact, and will stand hot, dry weather. Gurney's Stonehead Lettuce is just that, and more.

Pkt. 12c; 1/2 oz. 27c; oz. 47c, postpaid.

**New SALAD BOWL** 

## One Head Just Fills Salad Bowl

503-An All-America Medal Winner originated by the Bureau of Plant Industry. Well-named, because one head fills a salad bowl with a perfect rosette of rich green and very decorative leaves. It is a loose leaf variety, grows fast and grows large. Leaves are short, closely set, waved and notched. Holds its tenderness and fine texture over a long period.

Pkt. 20c; 1/2 oz. 39c; oz. 69c, ppd.

## GRAND RAPIDS -Best Leaf Lettuce

510-(45 days.) Beyond question the best leaf lettuce. Its crisp, crinkly leaves are de-licious and of excellent quality. Light green in color. Grows very erect, does not wilt and is disease-resistant. The easiest lettuce to grow, and the best flavored. The kind to sow in the early hot bed. Also widely used for winter forcing in greenhouses and is the winter forcing in greenhouses and is the home garden favorite of all. Take our word for it, Grand Rapids is the very best leaf on the market

Pkt. 10c; 1/2 oz. 24c; oz. 42c, postpaid.

### PRIZEHEAD

-Home Garden Favorite

111—(45 days.) Produces large, tender, loose heads of bright green, heavily curled leaves which are shaded with brownish-red. Excellent flavor and quality. Ready to eat in about 45 days. Stays tender a long time and lasts well into hot weather. Very popular for home gardens as it is easy to grow.

Pkt. 12c; ½ oz. 27c; oz. 47c, postpaid.

## CHICKEN LETTUCE -Poultry

508—Your poultry needs "green" food and this variety of lettuce is just the thing you should grow for this purpose. It is a genuine lettuce which will yield as much or more chicken and rabbit feed than any plant you may have used for greens.

Pkt. 10c; oz. 29c; 1/4 lb. 75c, postpaid.

## SPINACH

210-AMERICA. (50 days.) All-America award winner of delicious flavor. Leaves glossy, dark green thick and heavy crumpled, 8 in. tall. Stands a long time without seeding. Pkt. 15c; oz. 30c; 1/4 lb. 85c. ppd.

207-KING OF DENMARK. (46 Very slow to go to seed and holds its fine quality after all other \*\*\*\*\*\* varieties are gone. Forms large compact tufts of dark green, crinkled leaves. Fine for canning. Pkt. 10c; oz. 20c; 1/4 lb. 45c, postpaid.

222-MUSTARD SPINACH or Tendergreen. (28 days.) This new vegetable is a very mild mustard with a creamy spinach flavor. Combines the good points of both spinach and mustard, making it about the best flavored of all greens. Something new, different and better. Pkt. 10c; oz. 18c; 1/4 lb. 55c, ppd.

## 

The Aristocratic Cabbage 216-EARLY WHITE VIENNA. (55

days.) A member of the cabbage family with an edible turnip-like bulb which grows above the ground. Easy to raise. The sweet, fine grained, white flesh combines the flavor of both cabbage and turnip. A very good vegetable for home and market garden.

Kohl-Rabi should be used when about 2 inches through. Serve cooked like turnips, or eat raw. Be sure to plant at least one row of this fine vegetable.

Pkt. 15c; 1/2 oz. 27c; oz. 50c, postpaid.

#### . . KALE or BORECOLE

232-DWARF GREEN CURLED. (55 days.) Can be used for boiling greens, creamed or chopped raw like lettuce for sandwiches and salads. The finely curled leaves are tender and delicious. Rich in vitamins. Easy to raise and yields immense crops.

Pkt. 10c; oz. 30c, postpaid.

220-(60 days.) Swiss Chard will make more and better greens than any other vege-table. It is grown for its leaves and stems. An immense yielder and can be used from early spring until late fall. Stands both hot and cold weather well. More people should raise this because of its high content of nutrients and vitamins.

Pkt. 12c; oz. 25c; 1/4 lb. 75c, postpaid.

## Gurney's CABBAGE

SEE PAGE 21 FOR CARRAGE PLANTS

There's not another vegetable where seed quality counts as much as with cabbage. Our strains are all sure to make solid heads as these seed strains are carefully selected.

Start seeds 6 to 10 weeks ahead of outdoor planting time in the house, hotbed or cold frame. Space plants 18 in. apart in rows 2 to 3 ft. apart. If worms should happen to bother, use Gurney's Bug Dust.

#### COMBINATION CABBAGE OFFER

- 1 Pkt. Golden Acre

## DISEASE-RESISTANT CABBAGE

#### JERSEY QUEEN Early Disease Resistant

525 — (63 days.) Disease-resistant Wakefield. Standard Wakefield. Standard carly, pointed head, smooth, dark green leaves. Heads average 2½ to 3 lbs. Does well everywhere. Makes a crop where others fail. Pkt. 15c; ½ oz. 35c; oz. 65c, ppd.

#### **MARION MARKET** Dependable Early

523—(75 days.) A Copenhagen strain with all the good points, plus resistance to disease. Almost round he ad a that weigh 5½ to 7 lbs. each. Quality very good. A favorite early type for home and market gardeners as it is so dependable.

Pkt. 15c; 1/2 oz. 37c; 1 oz. 68c, ppd.

ALL SEASONS
520 — (85 days.)
This fine, large, Yel-lows-Resistant cab-bage can be used early or stored for 'your winter supply.
The solid heads weigh from 3 to 10 pounds, and make extra-fine kraut. ALL SEASONS is a heavy yielder.

CHINESE CABBAGE

A Vegetable for Salads and Greens
539—(70 days.) This new Oriental Cabbage is excellent for salad purposes. In flavor it resembles both celery and Cos Lettuce, but is sweeter and more tender. Also delicious for greens. Plant in early July, same as turnips.

Pkt. 10c; ½ oz. 30c; oz. 55c, postpaid.

PERFECTED DETROIT
"All-America" Winner
602 — (58 days). A reelected strain of Detroit

DARK RED. In our trial grounds it made the best showing of any for color, shape, uniformity. Medium in size and perfectly round.

Rich, deep dark red with absolutely no white rings or streaks. No side roots. Flesh is sweet, tender and of good quality. Excellent for home garden, market,

for home garden, market, canning and freezing.

Pkt. 15c; oz. 35c; 1/4 lb.
1.10, postpaid.

#### DAKOTA WONDER Deep Red and Early

607—(52 days.) A beautiful, smooth, globe-shaped beet with small neck and tap root. The flesh is an intense dark red and very tasty, being of good quality and sweet flavor. Very uniform in size and shape. Very early. A favorite with market gardeners, but many home gardeners prefer it too particularly for fall planting Good for bunching and winter

Pkt. 12c; oz. 35c; 1/4 lb. 1.10, postpaid.

604-(60 days.) This dark red beet is a winner for every purpose. It is early and the small tops and globe-shaped roots make it ideal for bunching. The flesh is very dark red with faint rings. Very sweet and tender. One of the best winter keepers. More Detroit DARK RED are grown than all other varieties combined and that is simply because year after year it does better in gardens anywhere than most any other variety. If you can plant but one beet, be sure it is Detroit DARK RED

Pkt. 12c; oz. 33c; 1/4 lb. 98c, post-

#### PERFECTED CANNER For Canning, Cooking and Pickles

For Canning, Cooking and Pickles
605—(59 days.) A new beet
that beats them all. If you are
looking for perfection, stop right
here. This beet not only has the
richest fleep, dark red color, but
doesn't lose it in cooking or
pickling. It absolutely won't
fade. Is small, uniform and
smooth and has practically no
tap roots. Besides all this, it is
exceptionally sweet, tender and
fine grained. Quality is unsurpassed. You can't find a better
all-around beet for canning. Also
good for market, shipping and
freezing, for cooking or for
pickling.

Pkt. 12c; I oz. 35c; 1/4 lb.
1.10, postpaid.

## Gurney's

1/3 lb. Sweet Cross, the medium-early variety.

ariety. b. Golden Stowells Hybrid, the late

No. 155X All 3 for only 99c ppd.

#### The Best Way to Cook Sweet Corn

Gurney's SWEET CORN

Select only sound, well-matured ears, but not tough ones. The sooner you use corn after picking, the better because sugar content and flavor start to change as soon as the ear is picked. Drop ears into a kettle of boiling water to which a little salt has been added. Cook for 7 to 10 minutes. Take out and serve at once with plenty of butter and salt

#### **How to Freeze Sweet Corn**

Use only best ears. Husk and silk. Drop ears in boiling water for 7 minutes. Take out and put in cold water. Cool as quickly as possible and drain well. Cut kernels from cob with sharp knife; don't cut too deep. Put in glass jars or regular freezer cartons, seal tightly, and freeze quickly. To prepare, add small amount of boiling water and cook as you would fresh corn. You can freeze corn on the ear, too, but cut from the cob it takes less space and, we think, tastes better.

#### **2 FINEST HYBRIDS FOR FREEZING**

Sweet Cross Hybrid—Deep golden yellow ernels. Fine flavor.

Triple size pkt. 12c; ½ lb. 28c; 1 lb. roasting ears. Triple s 45c; 3 lbs. 1.15, ppd.

#### **CUCUMBERS** Churney's

#### "Early Surecrop' CUCUMBER

and a good book.

Brand New All-America Medal Winner

This new hybrid won a bronze medal in the All-America trials. It is deep green, 8 in. or more in length with small cavity. Excellent quality and crisp. The best slicer we know of. Pkt. 25c; 1/2 oz. 2.95; i oz. 4.95, post

#### EARLY HYCROP"

356—(54 days.) With this new 1954 introduction you can enjoy pienty of pickles. This true first generation Hybrid is outstanding in vigor and yield. Blocky 5 to 6 in. cukes are ideal for pickling. Heavy yielder. Pkt. 25c; ½ oz. 2.95; i oz. 4.95, postpaid.

#### Special Cucumber Offer

How to Plant Cucumbers Cucumbers will grow most anywhere, but they like reasonably rich soil. Plant plenty as you may lose some seedlings. Do not crowd them. Make hills at least 4 to 6 ft. apart, planting about a dozen seeds to the hill. An ounce of seed is enough for 100 hills. Scatter seed so hill will be at least 8 in. in diameter. Plant at cornplanting time when soil is warm. Late plantings may be made in June and early July. For good pickles we suggest National Pickle; but for slicing, the new Early Surecrop Hybrid is by far the best.

#### **Use Gurney's Bug Dust on Cucumbers**

Thousands of our customers have found our special formula Bug Dust to be of great help in controlling cucumber beetles. Gurney's Bug Dust has three-way action. (1) It is a stomach poison. (2) It is a contact poison. (3) It is a fungicide. Don't wait for garden pests to take your cucumbers—

dust early and thoroughly with Gurney's Bug Dust.

#### Special Bug Dust Offer

4110X-2½ lbs. of Gur-rey's Bug Dust, plus handy refilable gun that holds full pound of dust, for only 1.59, postpaid.

smallest backyard garden. Compact bushtype plant. Fruits brilliant orange, sugar-pie
type and about 7 to 8 in, across. Delicious flavor. Flesh is sweet and fine grained. Fine for pies. Pkt. 15c; oz. 25c; ¼ lb. 75c, postpaid.

#### DICKINSON

#### The New Pie Pumpkin

762—Rich, golden colored flesh. So good additional sugar, starch, or coloring is unnecessary. The brilliantly colored flesh makes attractive pies. Pkt. 10c; oz. 22c; 1/4 lb. 55c, ppd.

#### CONNECTICUT FIELD

For Pies or Stock

764—(120 days.) A good keeper and an immense yielder of fine stock food; pumpkins often weigh 100 lbs. each. Makes fine pies, too. Pkt. 10c; oz. 20c; ½ lb. 40c; i lb. 95c, ppd.

#### MAMMOTH KING

The Biggest of All 769—(120 days.) 100 lb. pumpkins not unusual. An enormous yielder. Flesh thick, bright orange, of fine quality. Pkt. 12c; oz. 25c; /s lb. 50c; 1 lb. f.25, postpaid.

#### Best Variety of All

271-(105 days.) The best and most popular variety of all. Vigorous grower, very dependable, superb sugary flavor. Roots about 3 inches in diameter and shoulders taper to a smooth point. Hollow crown, white flesh. Exceptional quality. Tender and delicious in the fall after

a frost. Sow seed in early spring in rows 2 to 3 ft. apart and cover with ½ in. of fine soil. Thin seedlings to about 4 to 6 in. apart. May be stored for winter use or some left in ground all winter to be used in early spring. Pkt. 10c; oz. 30c; 1/4 lb. 85c, postpaid.

#### Earliest Market CAULIFLOWER

223-(60 days.) The finest early market and home use variety. Very productive. Sure to head. Has beautiful snowy white, uniform heads. Dwarf, compact grower. Short-leaved type. For main crop (fall) sow seed thinly in specially prepared seed bed about 4 months before first anticipated frost. Thin out seedlings in bed. Set out plants about 2 ft. apart in rows 21/2 to 3 ft. apart.

Let grow until heads fully formed. Fine for freezing. Pkt. 15c; 1/4 oz. 90c; 1/2 oz. 1.65, postpaid.

#### PARSLEY CHANGEON MOSS CURLED

TURNIP-ROOTED PARSLEY 221—(90 days.) Has the same flavor as regular parsley, but has small turnip-shaped roots that are used for flavoring soups, stews, etc. Leaves are plain and can be used like ordinary parsley. Pkt. 10c; ½ oz. 20c; oz. 35c, postpaid.

BROCCOLI Epopulation

209-(70 days.) Just as easy to raise as cabbage, and as good as cauliflower. No solid heads but an abundance of light green, tender sprouts which are delicious creamed or used for greens. Use central head first. Side shoots summer crop and midsummer for a fall crop. Especially will follow Sow early for for a fall crop. Especially good strain for freezing. Pkt. 12c; ½ oz. 30c; oz. 45c, ppd.

## EARLY NORTHERN PEANUTS

219-We have been growing peanuts in South Dakota for a long time and the variety we are offering is early enough to get ripe in a normal season. Nuts are small and of fine flavor. Pods usually contain two kernels, with many pods on the vines.

This Early Northern variety will stand lots of dry weather and still yield an immense crop of delicious nuts. Plan on planting some peanuts for the children.

With each order for peanuts, we give full instructions for planting and care. This assures you of good results.

Peanuts are easy to grow. easy to roast, and easy to eat. If you don't think so. take a pan of home-grown peanuts, put them in the oven for about 30 minutes and eat while they are still hot. Good! Of course they are, and that is a wonder ful way to pass some of the long winter evenings.

Triple Size. Pkt. 10c; 1/2 lb. 35c; 1 lb. 55c; 3 lbs. 1.35, postpaid.

200 - M A R Y Everyone likes Asparagus. It is easy to raise and will last a lifetime. last a lifetime. Mary Washington is the largest of all and is rust-resist-ant. Is tender, rich flavored, and is not stringy. Don't let another year pass without an Aspara gus bed. Pkt. 10c; oz. 25c; 1/4 lb. 75c, postpaid.

#### RHUBARB

237 - Victoria Large, thick, juicy, red stalks. Flavor sweet and rich. Especially good for pies and sauces. Is easily grown and produces abundantly. Will grow any old place and will thrive there for years. A pkt. of seed sows about 10 ft. of row. Pkt. 10c; oz. 25c; 1/4 lb. 65c, postpaid.

662—GOLDEN PLUME. (118 days.) We recommend this new self-blanching variety to both home and market growers. Very early, a beautiful golden yellow and always crisp, tender, and stringless. Flavor distinctly nut-like and rich it's easy to grow and so much better than "store-bought" celery. Pkt. 10c; ½ 0z. 33c; 0z. 48c, postpaid.

661-GIANT PAS-CAL. (140 days.) The largest celery grown. Stalks are very tall and heavy, and when blanched are yellowish white. Flavor is nutty and rich. The heaviest yielder. Best winter keeper. Pkt. 10c; ½ oz. 33c; oz. 48c, ppd. 208—CELERIAC. LARGE SMOOTH PRAGUE. (120 days.) A variety of celery having turnip-shaped roots used for seasoning soups, meats, and in salads. This variety is the best, largest, and very easy to raise. Pkt. 10c; ½ oz. 25c, postpaid.

## CITRON MELON

For Pickles

721—(90 days.) Used exclusively for preserving or pickling. The rind is dark green, distinctly striped with light green. You may plant beside regular melons, as will not harm them. Pkt. 10c; oz. 25c, postpaid.

#### GARDEN LEMON

For Preserves, Pies, and Pickles

344-(90 days.) Vine similar to muskmelon; requires same cultiva-tion. Fruit size of a large peach. or pickles, pies and preserves 10c; 1/2 oz. 20c; oz. 35c, postpaid.

311-Schnittlauch. (80 days.) This perennial plant of the onion family is used for seasoning soups, salads, and stews. It is easy to get started and once established will grow for many years. Pkt. 10c; 1/4 oz. 35c, ppd.

#### **LEEK** September Giant

231-(130 days.) This new white is the largest and best of the Leek family Stalks are often 12 in. long and 2 in. in diameter. So ups and salads flavored with Leek are delicious. Pkt. 12c; ½ oz. 25c, postpaid.

#### **CURLED GARDEN CRESS**

243—(40 days.)
For flavoring salads, garnishing, or
with lettuce in salads. An agreeable,
peppery taste. Foliage deep green,
finely curled. Best
used when young.
Grows easily and
quickly. Pkt. 15c;
y<sub>2</sub> ox. 29c; oz. 49c,
ppd.

#### **RUSSIAN SUNFLOWER**

239—(80 days.) Produces immense heads, as much as 20 inches in diameter, and yields of 50 bushels per acre are not uncommon. The seed can be eaten by humans (parching necessary) or used for chicken feed. The stalks make silage said to be more nutritious than corn. Quite pretty, too. Pkt. 10c; oz. 20c; ¼ lb. 35c; 1 lb. 75c, postpaid.

#### SUNFLOWER SEED FOR BIRDS

240—All birds love Sunflower Seed and with it you can help sustain them when the ground is covered with snow and ice. 4 lbs. 1.39, postpaid.

#### SALSIFY

205 - Improved 205 — Improved Mammoth Sandwich Island. (120 days.) Like oyster stew? Plant salsify and have delicious vege-table oyster stew all winter. Delicious baked or creamed. Has long, slender roots. Flesh white, tender and sweet. Sow early, cultivate, harvest and speet like parsnips. Pkt. 12c; oz. 44c; 1/4 lb. 1.10, postpaid.

#### OKRA or GUMBO

236—Extra Early Dwarf Green. (55 days.) Delicious for stews, flavoring soups, and for salads. Easy to raise and yields immense crops. Plants grow 3 to 4 ft. tall and are very productive. Pods pointed, dark green, slender and slightly ribbed. Use when from 1 to 2 inches long. Pkt. 10c; oz. 20c, postpaid.

#### ENDIVE -For Greens or Salad

234—(90 days.) Easy to raise and good to eat as greens or in salads. Makes large plant up to 16 in. across. When fully grown, tie over the outer leaves to blanch, making beautiful creamy white heads. Eat like lettuce or cook like spinach. Pkt. 15c; oz. 30c, postpaid.

235-Excellent strain for northern states. Does beautifully in Wisconsin and Minnesota. Fine crop in middle states, too. Grow your own tobacco, on your farm. Full instructions. Pkt. 15c: 1/4 oz. 30c; 1/2 oz. 50c, ppd.

## Gurney's

#### How to Plant Muskmelons:

Muskmelons like a warm season and warm, rich, sandy soil. Plant in hills, 6 or 8 ft. apart, using about a dozen seeds to the hill. Plant about corn planting time. Keep weed-free and watch for bugs. An ounce of seed is enough for about 100 hills. For home use don't pick until the stems lets go easily when you turn the melon over. We are proud of our Muskmelons. All the seed comes from fields grown for seed purposes only; that means you get the best!

#### HEARTS of GOLD

Deep, Golden & Sweet

345—(92 days.)
Mighty tasty, clear to
the rind. Mediumearly, very productive, and one of the
best shipping melons.
The flesh is sweet, thick, firm and solid.
Heavily ribbed.

Pkt. 12c; oz. 35c; 1/4 lb. 95c; I lb. 2.65, postpaid.

STANDARD ROCKY FORD Early Green-Fleshed Melon

334—(88 days.) So sweet and luscious its green flesh can be eaten close to the rind. Fruits are oval-shaped, firm and solid. Weigh 1½ to 2 lbs., slightly ribbed. We offer a selected early strain. Petc. 12c; cz. 30c; ½ lb. 75c; 1 lb. 2.35, postpaid.

## Choice, Juicy

Who doesn't enjoy a fresh, sweet, ripe watermelon? And they always taste better if they are from your own patch. Even back-yard and city gardeners can have a few hills of melons. Anyone can raise them. Melmelons. Anyone can raise them. Melons like warm rich sandy soil. Large ones should be planted (six or eight seeds to the hill) 10 ft. apart each way. Midget and Sugar Lump types, 6 ft. apart. Do not plant until frost danger is past. Dust with Gurney's Bug Dust to control beetles. One ounce seed will plant 50 hills; three rounds to the acre. Our favoites are pounds to the acre. Our favorites are Midget, Dixie Queen Hybrid and Su-gar Lumps, but we like them all.

#### **BLACK DIAMOND**

#### Most Popular

715-(90 days.) Black Diamond is gaining favor each year for the market and home garden. It is large, round, dark green and the 35 to 40 lb. melons are sure to please you. Flesh is bright red, crisp, sweet and of excellent flavor. Be sure to plant some this year. YOU CAN'T BEAT IT. Pkt. 12c; oz. 28c; 1/4 lb. 85c; 1 lb. 1.95, postpaid.

## Bargain in MIXED WATERMELONS

All Kinds and Colors

7.10—A fine mixture for boys and girls, though we sell thousands to folks who haven't been youngsters for a long time. It's a mixture of many of our finest kinds, so you have all sorts at all times.

times. Pkt. 10c; oz. 25c; 1/4 lb. 55c,

#### FAR NORTH Earliest of All

339-(75 days.) A new one destined to become a favorite. Grows anywhere but especially

fine for Northern gardens. Developed by the Dominion Experiment Station at Morden. Four to five inch fruits on small vines. Salmon-colored flesh of excellent quality. Very sweet and juicy. A heavy bearer.

Pkt. 20c; oz. 65c, postpaid.

## HALE'S BEST

333-(83 days.) Here is about 333—(83 days.) Here is about the best all-around melon—one that is a money maker. Just the right size to serve halved. Of wonderful quality, the salmon-colored flesh is very thick, and seed cavity is small. Hale's Best is very early, heavily netted, and a good shipper. You'll like it.

Pkt. 12c; oz. 30c; ¼ lb. 75c; l lb. 2.35, postpaid.

## **GOLDEN CHAMPLAIN**

Early and Sweet

341—(76 days.) Still one of the very earliest and one of the very best in our trial gardens. It blossoms and sets fruit as soon as it starts to run. The melons are netted, ribs are prominent. Flesh is thick, sweet, of excellent quality and a beautiful golden yellow. An especially good melon for home and market gardeners in the northern part of the country.

Pkt. 15c. oz. 35c. 1/2 lb 95c. 1 lb.

Pkt. 15c; oz. 35c; 1/4 lb. 95c; 1 lb. 2.65, postpaid.

#### Best All-Around Melon **Delicious Early**

337—(78 days.) If you want one of the biggest, best flavored early muskmelons for home use or home market, plant Milwaukee Market. Often weighs over 10 lbs., and the sweet, spicy, golden flesh is sometimes 3 in, thick! Will stand more heat, drouth and lack of care than any other meion and still produce a good crop.

MILWAUKEE MARKET

Pkt. 12c; oz. 35c; 1/4 lb. 95c; 1 lb. 2.65, postpaid.

#### GOLDEN DELIGHT

#### For Home Garden or Market

338-(88 days.) You will be d lighted to serve this new A America award winner. Medium sized fruits, rather oval shaped, with extra-good quality thick orange flesh and a fine spley flavor. The wide shallow ribs and open netting make it attractive. A most delicious variety. Pkt. A most delicious variety. Pkt. 15c; oz. 40c; 1/4 lb. 1.15, post-

#### DAKOTA HONEY

Exceptionally Sweet

330—(90 days.) One of the finest, sweetest and best flavored of all Muskmelons. It is almost honey-sweet with enough spicy tang to make it just a little better than most any other Muskmelon you have ever tasted. A good, vigorous, hardy grower, Loo. Flesh deep, rich orange, thick and firm.

Pkt. 15c; oz. 35c; 1/4 lb. 95c; lb. 2.65, postpaid. \* \* \* \* \* \* \* \* \* \* \*

#### GOLDEN ICE CREAM

#### To Eat with Ice Cream

335—(90 days.) Here is the melon for sundaes. An ordinary dipper of ice cream just fills this melon because cavity is small. 6- to 7-in., almost round melons. Will outsell any melon because of fine appearance, thick yellow flesh and delicious flavor. Seed very scarce.

Pkt. 12c; oz. 35c; 1/4 lb. 75c; 1 lb. 2.25, postpaid.

## WATERMELONS

### EARLIEST and SWEETEST The Earliest

The Earliest

714—(70 days.) Melons weigh
from 12 to 15 pounds and flesh is
scarlet, very sweet, and fine grained,
Is a very heavy bearer, often producing 10 to 12 melons to a hill. Our
really northern customers should
probably plant this one. There is
little use in planting large late variettes far north. They are usually
a disappointment—only nearly ripe
when frost comes. But you will always get under the wire with this
one.

Pkt. 15c; oz. 35c; 1/4 lb. 90c; 1 lb. 2.15, postpaid.

\* \* \* \* \* \* \*

#### EARLY CANADA

#### For Northern Areas

701—(75 days.) This new Canadian melon is earlier than our American melons. Firm, red, sweet flesh of good quality. Recommended for planting as far north as melons have ever been grown. Weight 10 to been grown. Weighs 10 to 15 lbs. Light green skin. Pkt. 12c; oz. 28c; ¼ lb. 65c; 1 lb. 1.85, postpaid.

#### DIXIE QUEEN Always Does Well

722—(80 days.) Good? You bet it is. And early, too. Not as large as Early Kansas but you can ex-pect a lot of 40-pound melons. The melons are light green with nar-row, dark green stripes. Thin rind, nearly round. Very heavy bearers. And best of all, they are sweet as honey, easy to grow and very profile.

1. 12e; oz. 32e; 1/4 lb. 75e; 1.95, postpaid.

#### WINTER WATERMELON Keeps All Winter

717—(85 days.) In late fall when other melons are gone, go to the barn or strawstack where they are stored, get a big, round Winter Watermelon, so crisp that sometimes it will split wide open when you stick a knife into it. Flesh bright scarlet, of fine quality, sweet and delicious. Melons nearly white, weigh from 15 to 25 pounds.

Pkt. 10c; oz. 25c; 1/4 lb. 65c; l lb. 1.35, postpaid.

#### HYBRID DIXIE QUEEN The Best of All Melons

723—(90 days.) Here is the firmest, sweetest, most delicious melon you probably have ever meion you probably have ever tasted. It's one we're really proud of, as it's our own origina-tion. The meions are big, weigh-ing from 35 to 50 lbs. Hybrid Dixie Queen can really take lots of dry weather and you'll find it stays in eating condition better than the ordinary Dixie Queen. In addition, its hybrid vigor gives it disease resistance. Thus, it it disease resistance. Thus, it does well when and where many

Flesh is deep red, fine grained and free from stringiness; sugar-sweet and crisp, too. Ready for eating around the middle of Au-gust. Don't miss this new melon —it's a dandy.

Pkt. 25c; 1/4 oz. 75c, postpaid.

#### CONGO Sugar-Sweet Flesh

704—(88 days.) Won a Bronze Medal at the 1950 All-America trials. Devel-All-America trials. Developed by the U.S.D.A. Resists anthracnose and wilt. sists anthracnose and wilt. A long melon with deep red, sugar-sweet flesh (actual test shows 9.4% sugar). Tough rind. An ideal melon for market gardeners. Pkt. 15c; oz. 35c; 1/4 lb. 90c, postpaid.

## Gurney's SUGAR LUMP

### Comes in 3 Separate Colors

you. Actually tastes better

than most large melons. Has

a very thin rind.

Pkt. 20c; oz. 45c; 1/4 lb. 1.35, postpaid.

#### KLECKLEY'S SWEET Now Wilt-Resistant

724—(85 days.) The old favor-e. For years the "yardstick" by which all melons are compared. Melons usually weigh over 30 lbs. Rind dark green. Flesh brilliant red, crisp, tender, sweet and fine grained. Seeds white.

Pkt. 10c; oz. 29c; 1/4 lb. 65c; 1 lb. 1.65, postpaid.

#### COLDEN HONEY SWEET

#### Big, Yellow, Sweet as Sugar

718—(90 days.) A golden, yellow-fleshed watermelon. Better quality than most of the red fleshed melons. Just as with the early Sugar Lump melons, we believe you'll find these big yellow melons sweeter and tastler than the reds.

Pkt. 15c; oz. 25c; 1/4 lb. 60c; l lb. 1.45, postpaid.

#### EARLY KANSAS or Red Seeded Hutchinson

716-(80 days.) One of the best of the newer watermelons. Large, nearly round, light green with dark green stripes. Weigh 20 to 30 lbs. Flesh crisp, firm, sweet. Fine for home garden, market or shipping.

Pkt. 12c; oz. 23c; 1/4 lb. 50c; 1 lb. 1.35, postpaid.

som.

## WHITE BUNCHING ONIONS .

-Absolutely the best for early on-314—Absolutely the best for early onions. Does not form bulbs. Long, slender, silver-white stalks. Produces clusters of four or five. Mild and sweet. Extremely hardy and will winter over without protection. Seed planted in spring makes onions by midsummer and seed planted in fall makes onions in early spring. A hardy perennial. Pkt. 15c; 1/2 oz. 45c, postpaid.

## .. Hybrid AUTUMN STAR

For Bigger Yields

304—Autumn Star Hybrid Onion. (110 days.) Hybrid vigor makes this fine onion a tremendous yielder. It's a fine new one and a favorite for home gardens. Color is a beautiful, dark yellow with creamy flesh. Good keeper and best of all, gives big yields. Has a fine pungent flavor. A true first generation hybrid. Pkt. 20c; ½ ox. 65c; 1 oz. 1.15, postpaid.

#### WHITE SWEET SPANISH . .

**Early Sweet Table Onion** 

313—(110 days.) A fine, large, sweet white onion. Stores well over a long period of time. Very fine grained, of excellent quality and has mild, sweet flavor. Yields as well as the Yell. Swt. Spanish and keeps better than Bermuda. Does well in northern sections with onions weighing over a county with onions onions weighing over a pound Pkt. 15c; oz. 85c; 1/4 lb. 2.25,

## **ONION SETS**

Everyone should plant onion sets for early green onions. Many prefer to grow their large onions from sets instead of from seed, as they can market them much earlier while the price is high. Our sets are smallsized as they are the favorite and will go farther than the large ones.

#### POSTPAID PRICES:

317-Yellow Bottom Sets: 1 lb. (approximately 1 quart) 40c; 4 lbs. 1.39; 8 lbs. 2.49, postpaid.

No red or white sets this year. Order yellow ones— they are the best anyway. Write for prices on larger quantities.

#### **How to Plant Onion Sets**

Onion sets should be planted real early in the spring. Plant them deeply if you want best green onions. The onion bulbs naturally grow on the top of the soil so don't throw too much soil against them when cultivating. One quart will set 50 feet of row. Harvest when half the tops have fallen.

## NION

HOW TO PLANT ONIONS

Grow onions from seed, sets or plants-all 3 are listed. Grow onions from seed, sets or plants—all 3 are listed. The seed is western-grown. Our sets are from Colorado and the plants are grown by one of the best growers in Texas. Onions From Seed: Prepare the soil in Fall or early Spring and sow EARLLY in Spring. Cover not over ½ in deep. Make rows 16 to 18 in. apart, depending on the method of cultivation. One ounce of seed will sow 100 ft. of row. Onions like rich soil, plenty of cultivation. Harvest when tops fall over. Store in shallow, well ventilated crates or hang up by tops.

#### YELLOW SWEET SPANISH

303—Utah Strain. (110 days.) Largest and mildest of all. Fine for the north. Bulbs are globe-shaped, small necks, firm, golden-yellow skin. Mild, pleasing flavor. Yields of 1000 bu. per acre are common. Pkt. 15c; oz. 85c; 1/4 lb. 2.25; 1 lb. 6.75, postpaid.

#### SPECIAL ONION OFFER

375X—1 Pkt. each of Yellow Sweet Spanish, Dakota Red Globe and White Bunching.

#### SOUTHPORT YELLOW GLOBE

302-(110 days.) Probably 302—(110 days.) Probably best keeper of all yellow onions. A big yielder, too. Onions remarkably uniform and mature at same time. Bright golden yellow in color. Flesh creamy white and fine grained. Deep globular shape with thin neck and full shoulder. A good keeper. For home or market garden. Pkt. 12c; oz. 65c; ½ lb. 1.85; 1 lb. 4.65, postpaid.

#### SOUTHPORT WHITE GLOBE

307—(110 days.) Here is the best white onion you can cultivate. Also one of the most beautiful. Large and perfectly round. Flesh pure white, mild flavored, sweet and juicy. Paper-white skin. A main crop variety. Good keeper. Excellent quality. Pkt. 12c; oz. 75c; ¼ lb. 2.15; 1 lb. 5.95, postpaid.

#### DAKOTA RED GLOBE

309-(110 days.) This Red Globe has been raised in South Dakota for many years. Glossy deep red, large and round. Flesh mild, pleasant and fine grained. Wonderful keeping qualities. Yields heavy. 10 days to 2 weeks earlier than regular Southport Red Globe. Pkt. 12c; oz. 65c; 1/4 lb. 1.85, postpaid. \*\*\*\*\*\*\*\*

#### **Purple Top Yellow Rutabaga** Good Keeper-Firm Flesh

-More of this variety is raised than any other. The roots are purple above and an attrac-tive yellow below. The light yellow flesh is firm, sweet, and fine flavored and cooks to a bright sweet, and the flavored and cooks to a bright orange. It has very small necks and no side roots. Has large, smooth, cabbage-like leaves. One of the best for table or for stock feed. Very productive. Will keep in fine condition until late in the spring. Pkt. 10c; oz. 20c; 1/2 ib. 45c; i ib.

#### **Extra Early Milan Turnip**

803—(40 days.) Similar to Strap Leaf but earlier. One of the finest turnips grown. Flat with purple top. Fine grained, sweet and very tender. If you want an extra early, extra fine turnip, this is the one you should buy. Pkt. 10c; oz. 20c; ¼ ib. 45c; i lb. 1.35, postpaid.

#### PURPLE TOP WHITE GLOBE For Fine Flavor

807-This all-season turnip is sweet and tender from the time it is large enough to use until the following spring. We consider this the finest table turnip on the market today, and also an immense yielder of rich stock feed. Pkt. 10c; oz. 20c; 1/4 lb. 40c; 1 lb. 1.15, postpaid.

#### PURPLE TOP STRAP LEAF Good for Storage Sow Early or Late

806-Similar to Purple Top White Globe but flatter in shape. Grows 4 to 5 inches across. Has delicious flavor and is one of the most popular varieties grown. Can be planted either in fall or spring. One of our best varieties, a fast grower and an excellent keeper. Suitable for freezing. Pkt. 10c; oz. 20c; 1/4 lb. 40c; 1 lb. 1.15, postpaid.

Turnips and rutabagas are easy to raise and easy to store. Early varieties can be sown in the spring just as soon as you can get them in the ground, but most kinds do best as a fall crop. Sow 2 to 3 lbs. to the acre the last part of July. 1 oz. of seed will drill 150 feet of row. For successive crops, make 2 or 3 plantings at about 2-week intervals

Both these vegetables store well. Simply store them in outdoor caves, a cool, dark basement or pit. Make sure there is adequate ventilation as mold might develop where it is warm and stuffy.

GURNEY'S, Yankton, So. Dak. "Northwest's Largest Seed and Nursery House"

The varieties of Rhubarb which we list are not the common old rhubarb that is green and stringy, but better, improved strains.

#### FAMOUS CHIPMAN'S CANADA RED

Best of the New

A3056 — Stalks are large, red from bottom to top, inside and out. Cooking does not take its rich color. Sweeter, so takes less sugar. Productive and nearly seedless. We believe this new, all-red Rhubarb is the very finest you can plant. Does well on most soil types. You can pull big stalks from spring till fall. Plant early and get some rhubarb this year. Large No. 1 roots, 98c each; 3 for 2.69, postpaid.

## Gurney's GOLIATH The Giant Rhubarb

The Giant Rhubarh

Cherry, 2-3 ft.

## About PLUM POLLINIZATION

Plum trees ordinarily will set a fairly good crop of fruit when planted singly because bees carry plum pollen a long way, and there usually are some plums in the neighborhood. However, for a really bumper crop, you should plant two or more varieties, at least one of which would be a good pollinizer. Three good pollinizers are Kaga, the new South Dakota, and Compass, listed on page 19. These three also bear good fruit. So to get the most fruit from your plums, include one or more of these three in your order.

#### Extra Hardy-Early Bearing Often Bears First Year After Planting

A1628-The earliest of the Hansen Hybrids, Opata bears ropes of fruit which ripen in mid-July. A juicy, tangy plum of mediumsize, green flesh; flavor very pleasant. Tree is vigorous in growth. Extra hardy and often bears one year after planting. This variety does very well for the southern planter as well as producing a fine crop clear up into

#### Delicious Plum Cherry Cross Another Early Bearer With Pine Flower

A1627—Has highest quality of any in the Cherry-Plum group. Very productive, skin almost black. The deep purplish-red flesh is very juicy and sweet. Resembles large, sweet cherries and the quality is very good for eating or cooking. Ripens mid-August to early Sept. Remains a bush rather than a tree. Fruit stays edible on the bush three weeks after ripening.

#### The Rich Black and Sweet One

the pit. It has a sweet flavor you can't forget and bears immense quantities annually. Ripe the latter part of July. Bears the first year after planting. Very hardy. Has deliciously sweet juice. You'll enjoy it year after year. Be sure and plant one or two of these trees if you want loads of

Tastiest Plum Collection

569 FREE GIFT: Two 2 to 3 ft. Hansen's Bush Cherry.

#### "The Apricot Flavored Plum"

KAGA

A1620-A deliciously flavored plum with an appetizing fragrance. Medium-size, heavy producer, and bears very early after planting. Very hardy. A cross between a native wild plum and the very fragrant Chinese Apricot. A good pollinizer and a variety that will produce plenty of plums for canning, preserves, and delicious eating right from the tree.

## Easy-to-Grow

#### New "SOUTH DAKOTA" Plum

A1633-Dr. Hansen's latest. Tree is hardy, vigorous, and productive. Fruits medium size, bright red over yellow with flesh that is yellow, tender, and Fine for eating fresh, jellies, jams. A late plum. Fine pollinizer.
This fine new plum is now available
at our regular plum prices as listed
below. Be sure and try New SOUTH

#### New "HONEY DEW" Plum

A1615—This is a new, very early-ripening plum developed by Dr. McCrory of S. D. Experiment Station. The fruit is a shining, dark purple and the flesh a cool, pale green that is so sweet it almost melts in your mouth. It's tender, too. If you want a plum that has just about everything as far as quality is concerned, plus the inherited ability to withstand drought, hot summers and cold winters, be sure and include Honey Dew on your list. Now available at our regular plum prices.

#### PLUM SPECIALISTS FOR OVER 80 YEARS

Plums have been a Gurney specialty for over 80 years. We offer you a complete line of plums, each one the best of its kind. All are budded on hardy plum seedlings -not on peach. (Beware of southern plum trees for the northwest because many of them are budded on peach stock, which is not hardy.) All Gurney Plums are extra-hardy. They include 7 of the hardy Hansen plums: Waneta, Opata, Oka, Sapa, Kaga, South Dakota, and Tecumseh. Underwood and Superior are Minnesota varieties.

Set 14 ft. apart in row with rows 18 ft. apart. 170 trees to the acre. Don't forget that they not only produce a lot of delicious fruit but make beautiful decorative trees for the yard.

#### New Hardy IDAHO PRUNE

A1612—Large, delicious blue prunes with firm flesh of fine quality. Excellent for canning or eating fresh. Cook up into fine wine-red sauce.

We have tested this variety for a number of years and found it able to stand our rigorous winters and still produce good crops. Idaho Prune was introduced by us and is the only one we feel worthy of listing in our catalog. No DeLuxe Grade.

#### PRICES OF DeLUXE GRADE PLUM TREES

Our Deluxe Grade as described at right. All 5 to 7 ft. size, except Oka (4 to 6 ft.). 2.50 ea.; 3 for 7.20, exp. not ppd. No DeLuxe Idaho Prune.

tree. Gurney's "whole-root" bud all fruit Only a sturdy, hardy root can sur-ur hot, dry summers and cold win-'WHOLE ROOT" budded fruit trees

#### True-To-Name Trees

Nothing is more disappointing than to buy and raise a fruit tree only to find out it bears the wrong kind of fruit. That won't happen at Gurney's. Experts

constantly checking. All trees go rough many inspections to assure you of only perfectly-graded, healthy trees and more important, that you get exactly what you order. Remember when you plant a Gurney fruit tree, you are planting for years to come. Gurney's GUARANTEE years to come. Gurney's GUARANTER their fruit trees to be true-to-name or re-placed FREE OF CHARGE.

#### Plant Early

We have always preached early planting and we still do. Early planting means the stock gets established before the hot, dry, summer months. Yes, early planting means success. Remember, you can't plant early if you don't order early. Don't wait until the last minute, but send in your order well in advance of the planting season.

GUARANTEED

1 YEAR

Every Gurney De-Luxe Grade fruit tree is guaranteed, if properly cared for, to be in vigorous growing condition one year from plant-ing or will be re-placed once absolute-

ing or will be replaced once absolutely free.

## Gurney's DELUXE GRADE

The "CREAM of The CROP" For Those who demand ABSOLUTELY the finest

Every Gurney Deluxe Grade Fruit Tree is a carefully selected, jumbo-size, perfect specimen that will come into bearing early. All are well branched, with a straight trunk and an extra-heavy you system. We carefully select these trees for you, using only the very finest of the 5 to 7 foot grade on all fruit trees except the pie cherries and the Oka plum-cherry. (For these we select only extra heavy 4 to 6 foot trees, because they do not grow as tall).

Proper Planting is Easy
with Gurney's Deluxe Grade
Complete planting directions are attached to each tree to make successful
planting easier for you. A white ring
around the trunk indicates the proper planting depth, and you can do a profes-sional job of pruning too, because all pruning points are carefully marked with white paint.

#### **DeLuxe Fruit Tree Prices**

- 6. Tag gives you complete instructions for best planting.

#### Dark "All Red" DUCHESS The Favorite Summer Cooking Apple

Aloi9—If you like the Old Duchess of Oldenburg, you will go for the New Duchess in a Big Way. It ripens its juicy red fruit throughout August. For those de-licious Apple Pies and Sauce, you'll find this New Duchess hard to beat. First degree of hardiness.

## Gurney's WEALTHY Popular Fall Apple

Fall Apple

Ai 105—This is too well known to need description. You are all familiar with its pale yellow skin almost hidden by brilliant red strines and its white juicy fiesh; the fine pies that can be made from it. You should also know that Wealthy is hardy and a leader of commercial or Home Orchard Apples for the North. If picked early and properly stored will keep until Christimas.

## YELLOW DELICIOUS The Golden Beauty

The Golden Beauty

Alo16—A luscious, golden, yellow, good-keeping apple. Extra hardv
on Siberian roots. It is not recommended for the North. It keeps well
if you can keep folks away from it.
It is DELICIOUS. Most popular yellow apple we have ever offered. Extra
large in size and the flavor is truly
'delicious.' You folks that can raise
Yellow Delicious will find it one of the
best winter apples.

#### PRAIRIE SPY The Winter Keeper

The Winter Keeper

A1076-Attractive red color,
very high quality is productive,
and hangs on the tree well. Because Prairie Spy is a good keeper and is so much better quality
than Winesap and others on the
market after Christmas, it is
widely planted for home use and
market. Be sure to include a few
Prairie Spy in your home orchard.

## Often Fruits First Year

A1000—Everybody plants Ano-ka. The earliest bearing apple that we know of. Little two-year-old trees in the nursery often bear several of these red striped ap-ples. The quality is good and the juice is rich in flavor. Anoka bears annually and is Extra Hardy. Medium size. This is one of our most popular summer apples.

#### FIRESIDE Hardy and Super Delicious

Alo25—Delicious quality yet hardy enough to grow and fruit in the far north. Trees large, vigorous, well branched. Fruit beautifully striped with crisp, firm, juicy fiesh—never dry. Keeps all winter and bears every year. Developed at the University of Minnesota State Fruit Breeding Farm.

#### HARALSON Finest Hardy Winter

A1040—If we add up all of the good qualities of all the other apples and say "this is Haralson," we would not be saying too much for this big, red juicy fruit that keeps till summer, and is borne heavily and annually on a sturdy, strong branched tree. Bears fruit in three years.

# All Season APPLE COLLECTION

A2009X—1 each of Wealthy, Haralson, Yellow Transparent, Duchess and Anoka—all 3to 4-foot for trees (good only planting only ppp.

## Northwestern GREENING Big Beautiful Fruit

Big Beautiful Fruit

A1065 — Very ATTRACTIVE winter apple, with smooth, waxy
clear pale yellow skin
with a slight greenish
tinge. Flesh is crisp
and mild. One of the
largest apples you can
grow with apple s
measuring sometimes
as large as 5" or more
across. Popular for
good quality and good
keeping ability.

#### SEE PRICES OPPOSITE PAGE YELLOW TRANSPARENT YELLOW TRANSPARENT Early Golden Summer Apple

Alilo—One of the earliest of the Harvest Apples, ripening right after Early Harvest. An excellent eating apple and "what apple pies you can make with it!" Bears immense crops of yellow, thin-skimed apples just 'tart' enough for the best sauce and pies. Fine in any home orchard.

## MeINTOSH RED

Good Reeping Fall Apple
A1061—To many the finest flavored apple
we list. Bears for years and years. Beautiful
red apples often with darker red blush, fragrant and of highest quality. A fall apple
which will keep well into the winter in storarge. One of the longest lived, and most dependable bearing of all apples.

#### 5-IN-1 APPLE TREE A Whole Orchard on One Tree

Not an ordinary 5-in-1 apple tree, but one with 5 hardy northern varieties: Red Duchess, Yellow Transparent, Wealthy, Prairie Spy and Haralson. Good from Yankton north, better than ordinary varieties from Yankton south. Each apple bears in its own season, giving you a whole orchard from one tree. Now even the smallest yard can grow 5 different kinds of apples. All are 5 to 6 foot trees 3 years old.

All15—3.19 each; 2 for 5.89. All14—3-in-1 Apple, 2.25 each; 2 for 3.98. Both Express Not Prepaid.

## Gurney's Hardy Selected APPLES

All Gurney Apple Trees, including the Crab Apple Trees, are grown by us here at Yankton on hardy Siberian root-stock. There is nothing hardier or better for north or south. We have been headquarters for hardy apple trees for over half a century and one thing you can depend on: If we say a certain variety of apple is hardy—it IS hardy.

## GURNEY APPLES ARE TRUE TO NAME

Nothing is more disgusting than to plant an apple tree and then find out a few years later it is not the variety you ordered. To assure you of fruit that is True-to-Name, we have had our apples inspected by the only True-to-Name Identification Service available in the Midwest, and a copy of their report appears below:

#### IOWA TRUENESS-TO-NAME IDENTIFICATION SERVICE

Sponsored by The Iowa State Horticultural Society Horticulture Building A. E. Cott

TO WHOM IT MAY CONCERN:
This is to verify that the one- and two-year-old budded apple trees propagated by the Gurney Seed and Nursery Company and being grown near Yankton, South Dakota, have been examined by the lowa True-to-Name Identification Service. To the best of my knowledge these apple trees are true to name as they now stand in the nursery row.

Very truly yours,

## HOW TO PLANT APPLE TREES

Set apple trees 25 to 35 feet apart. In setting your apple trees, prune them back severely, cutting all side branches to within 3 buds of main trunk and cutting off one-fourth of the main lead. Each year prune injured limbs only. Northern orchardists do better by letting their trees grow in the bush form, letting bottom branches grow to within 2 to 3 ft. of the ground. Send for free pruning bulletin.

#### Dark "All Red" DELICIOUS

A1015—The name "Delicious" describes its QUALITY. It is "ALL RED" and one of the best of all eating apples. Hardy from lower Nebraska south. Large, red, with 5 points on base. You'll have to do a lot of looking before you can find an apple that can equal this "ALL-RED" improvement on Delicious. The best-tasting fall apple.

#### **New Fall Apple** VICTORY

Alioo—If you like the old favorite McIntosh, you will more than enjoy the new Victory. It is a fine red apple that is excellent any way you use it. Try its delicious flavor fresh from the tree or make it up into some of the best sauce you ever tasted. We predict a great future for this wonderful new fall apple. Absolutely hardy.

#### TONATHAN A Favorite Red

Alo45—One of the best winter apples for every use. Red, juicy, and "snappy" when eaten out of hand. Excellent baked or in pies, and it keeps well without special care. Many orchards are comprised principally of Jonathan as it is considered one of the standards by which other apples are judged. Doubtfully hardy north of Mid-lows.

#### SPRAYING IS A "MUST"

Read about Gurney's COMBINA-TION FRUIT SPRAY on page 23. No fuss—no muss—no worry about mixing a lot of different chemicals. USE THE ONE SPRAY ONLY. Guaranteed to do the job.

#### APPLE BEARING CHART

Harvest Apples: Yell. Transparent, Red Duchess, Anoka. Fall Apples: Wealthy, McIntosh, Victory. Winter Apples: Haralson, Jonathan, Northwestern Greening, Prairie Spy, Fireside, Delcon, Red Delicious, Yellow Delicious.

#### HARDY APPLE OFFER

Giant 4 to 6 Ft. Trees

A2011X—These varieties grow well in the most northern sections. Have fruit the year around from this collection.

## CRAB APPLES for Fruit and Beauty

#### CARDINAL

A1010-A beautiful tree and fruit. Blooms are deep rich-pink, almost red. Apples are brilliant scarlet, shaped like a small Delicious. Flesh is red to the core. Makes a very tasty jelly just the color of Port Wine. Wonderful

Each Per 3
2-3 ft. Postpaid.....1.29 3.69
3-4 ft. Postpaid.....1.49 4.35
4-6 ft. Postpaid.....1.49 4-6 ft. Postpaid.....1.69 4.95

#### WHITNEY

Al 107-An old favorite. Good if eaten fresh, and best for pickling. Fruit is large, sweet and julcy. Color is yellow with lively red stripes. Hardy, vigor-ous and a heavy bearer. Same price as regular apple trees.

#### DOLGO

Al017—This is the best one for jelly. Has beautiful snow white blooms, and the best shape and foliage of any crab. Its glistening crimson fruit makes a clear, sparkling red jelly. Fruits on 2-year-old trees. Hardy. Same price as dy. Same price as regular apple trees.

## CRAB APPLE COLLECTION

A2020X — I Whitney, I Car-dinal, I Dolgo. All 3 to 4 ft. size.

ALL 3 Ppd., 298

The Children's Favorite

A1011—All children love this
fine new crab because of its
large size, brilliant bronze-red
color and its wonderful flavor.
Fine for the school lunch box as
it ripens in early September and
keeps well into November. Makes
excellent
sauce and good for
pickling, too. Be sure
and include at least
1 Chestnut Crab on
your order. It is a
heavy bearer and is
perfectly hardy anywhere. Makes a well
shaped tree that will

where. Makes a wen shaped tree that will look nice—even as a lawn tree. The fruit is so large it could almost be classified as a small apple.

## NEW DELCON DWARF

#### A True Dwarf With Large Apples Ideal for Small Yards or Lots

A1014—An apple tree tailor-made for the small lot. Delcon normally does not get over 12 feet tall, yet bears loads of beautiful, delicious, dark red, full-sized apples shaped like Delicious. The flavor has all the best qualities of two of its parents, Jonathan and Delicious, while the tree itself seems to have inherited additional hardiness from its third contributor, Ben

Delcon is a remarkable tree originated 20 years ago by the Missouri Fruit Experiment Station. Should have been on the market years ago.

It is a singlegraft, true dwarf. Much less expensive than \$4.00 to \$6.00 multigraft dwarfs, and yet better. 3 to 4 ft., 1.69 each, ppd. 4 to 6 ft., 1.98 each, ppd. Deluxe Grade 2.50 each, Exp. not ppd.

#### **Delicious PATTEN** Big and Productive

A1524-This pear is healthy, hardy and productive. Bears a LARGE, YEL-LOW fruit with the RICHEST JUICE AND FINEST FLAVOR. The skin is THIN and QUALITY EXTRA GOOD. We recommend this pear to both northern and southern planters if they are looking for a good "all around" variety that will bear lots of delicious fruit for years to come.

#### THE GIANT BARTLETT The Earliest Pear of All

A1502—This is one of the leading commercial varieties. Has long been one of the most popular for dessert and canning. Fanciest and finest of all pears. Has a rich, golden-yellow color with a rosy pink blush. Plant Bartlett if you want a good keeper and shipper. The fruit is pointed at the top and wide at the base. Tree is vigorous, hardy and bears young. This is an early variety that is fine for the more southern growers.

#### The Famous LINCOLN Hardy and Heavy Yielding

A1517—The most dependable pear. Large, good flavored. It has been producing a heavy crop every year for 22 years on George Gurney's farm. Even in a drouth year, 3 young trees produced 14 bu. Ripens about September 15. In big demand on the market. A good commercial variety and one of the best home pears.

#### SECKEL (SUGAR) PEAR The Sweetest of All

A1529—These are SECKEL or SUGAR PEARS. As sweet a flavor as itsname, "Sugar Pear," suggests. Good right off the tree and for desserts. Small in size but large in quality. A russet coat covers greenish yellow skin. If you are looking for a truly sweet pear, you can't go wrong with Seckel.

## DOUGLAS PEAR

The Good Keeper

A1509—This fall pear begins to produce heavy crops while still very young. One of the heaviest bearing

## Bear Early and Heavily

pears. Fruit is large, yellow, and may be allowed to stay on the tree until fully ripe. You don't have to bother wrapping them. This is one of the most blight-proof of all the pears.

### Gurney's Low PEAR PRICES

#### DELUXE PEAR PRICES

See description of Deluxe Grade Pears on page 15, 5 to 7 ft. Deluxe Grade Pear trees, 2.39 each, express not prepaid.

## Gurney's PEA

#### HOW TO GROW PEARS

Though the pear succeeds best in heavy, moderately fertile soil that is retentive of moisture, no one need hesitate to plant it in any soil available if it is well drained.

Tillage and fertilizing are the same as for the apple except that nitrogenous fertilizers must be used more cautiously to prevent lush growth. Pruning and training are similar to that of apple. (Write for free bulletin on pruning fruit trees.)

Pears grow upright, so can be planted as close as 14 to 16 feet apart. At 16 feet, takes 170 trees per acre. Pear trees bear early and heavily, and no other fruit com-pares with them in aroma, lusciousness, or range of flavors. Plant both summer and winter pears; wrap the winter pears in paper for mid-winter feasting.

Be sure to prune your pear trees severely at planting time. Recommend cutting all side branches back to within 2 buds of the main trunk and then remove at least 1/3 of the top growth.

INDIAN SUMMER

A2883 — Regardless of where you live, this Rasperry is good. Fruit is large, often an inch long. Here's a vigorous grower that produces an enormous crop. Minnesota's great market berry. 135; 12 for 2.39; 26 - 15; 50 for 8.25; 100 for 14.88, postpaid. ELDORADO 1-Yr. No. 1 Grade 2.59 postpaid. GIANT LATHAM EARLIRED

NEW THORNLESS BOYSENBERRY

#### MONTMORE

New Early Bearing Montmorency

A1335—This improved, dwarf-sized Montmorency often bears the first year. Only grows about 10 to 12 ft. high but it still produces a full-size crop because the trees get anywhere from 12 to 25 ft. broad and the cherries are much thicker than a Montmorency. Also larger and of a better quality. It is darker—black-red, Trees will bear anywhere from Georgia as far north as cherries will grow. Just as hardy or hardier than the Montmorency. Do not pick until cherries are deep red.

Following are prices on Montmore:
Each Per 3 Per 5 Per 10

2 to 3 ft., postpaid. I.49 4.35 6.98 13.69 3 to  $3\frac{1}{2}$  ft., postpaid. I.79 5.10 7.98 15.49  $3\frac{1}{2}$  to 5 ft., postpaid. 2.19 6.39 10.49 19.98 Deluxe Grade as described on page 15 (4 to 2.85 each: 3 for 8.25. Express Not

## EARLY RICHMOND The Early Pie Cherry

Al31!—The cherries have a bright red skin and red juicy flesh. The flavor is quite tart and marvelous for pies or canning. It is a strong grower and a heavy producer. You people south of southern Minnesota and southern South Dakota have ideal conditions for Pie Cherries. We consider it one of the very finest pie cherries on the market.

#### MONTMORENCY

The World's Favorite Cherry

Ai336—The fruit is large, with firm flesh of fine flavor. The cherry is a bright red, and wonderful for canning and preserves. Montmorency has proven itself wherever it has been planted. It is a tree of vigorous habits and always seems to have the ability to produce a crop in spite of conditions. This is one of the reasons Montmorency has often been called the world's favorite cherry.

#### NEW DWARFRICH The True Dwarf Pie Cherry

Al 3 10—The new hardy pie cherry was selected by Dr. A. C. Hildreth of the Cheyenne Field Station of the U.S.D.A. The fruit has the same bright red color, the same fine flavor, and almost the same size as the regular Early Richmond, but Dwarfrich ripens 10 days later. Makes a very attractive shrub only 5 to 6 feet tall, and it's almost covered with a solid mass of white blossoms in early spring.

18 to 24 in.....1.85, postpaid. 2 to 3 ft.....2.35, postpaid.

#### BLACK TARTARIAN The Large, Black Sweet Cherry

Al302—This dependable, large, black and delicious sweet cherry has been one of our most popular varieties for years. If you live where sweet cherries can be grown, plant several Black Tartarian and you can harvest quantities of large dark fruit in your own back yard. Not fussy about soils.

#### YELLOW GLASS Birds Don't Bother It!

and a yellow one at that—which will literally load itself down with a tremendous crop of fine, golden cherries, Yellow Glass is it. Has flavor that is every bit as good, and some consider it better, than the delicious Bing cherry. Hardiest of all the sweet cherries. You will also appreciate the fact that, because the fruit is yellow, the birds leave it alone. Try Yellow Glass—the hardiest of the sweet cherries.

#### **∀** METEOR

New Hardy Pie Cherry

Al332—At last we can offer a Hardy Pie-Cherry to all of our Northern friends. Devel-oped by the Minnesota Fruit Breeding Farm as Minn. No. 66, it has produced a crop of fine cherries every year, even after very se-vere winters when most other varieties killed

out.

The fruit is as large as Montmorency, bright red in color, and of very good quality. Mildly acid in flavor and a real treat for all who enjoy pie cherries as a dessert. We highly recommend Meteor as it is the cherry so long sought by all.

## Gurney's HARDY SEE ILLUSTRATIONS AT LEFT

Gurney's Cherry Trees are extra-heavy rooted, well-branched, and of ex-tra-heavy caliper. All budded on hardy understock to give a long-lived tree. Set 18 feet apart, each way, or 130 to the are. Keep the ground around them cultivated if you can, but cherries will do very well even when surrounded by a heavy sod.

**BUSH CHERRIES** 

#### HYBRID BUSH CHERRIES

Much larger and tastier fruit than the old Hansen Bush Cherries and better growers. 2 to 3 ft. 1.49 ea., 3 for 4.19, pd. Choose from following:

A:35!—BROOKS. Dark red fruit, almost as large as regular cherries. Bears heavily the second year. Bush is compact and shapely.

A 1350-BLACK BEAUTY. This is the newest selection of the bush cherry. The fruits are very dark, glossy, black maroon-red. Almost as large as tree cherries. Fruit red from skin right to the pit. Excellent for eating, canning and pies.

Al352 SIOUX. Extremely large cherries—% or better across. Purplish black, shiny with greenish flesh, Juley and sweet. In the vicinity of Minn, this cherry fruit about the second week of August. Barlier south of there.

All 3 to 4 Ft. Plants.

#### NANKING CHERRY

A1364—Here's a beautiful flowering cherry that provides an abundance of fine flavored, high quality fruit. It's a rare treat to see in the spring with loads of showy blossoms along its branches. Fruit is an attractive red, juicy and delicious. Its distinct flavor makes it fine for canning and pies. 18 to 24 in. size. 79c each; 3 for 2.19, postpaid.

#### Gurney's Giant RED-FLESHED Cherries

Cherries

Al 355—You've never seen more giant (plum-sized) fruit on one bush cherry in your life. Dark purplish-red skin and flesh. Actually classified as a plum and flesh and a tremental older for its size. Fine as an ornamental 2 to 3 ft.—1.10 each; 3 for 3.19, postpaid.

#### HANSEN'S IMPROVED BUSH CHERRIES

# A1359—The miracle plant that grows like a bush and is covered with blooms from one end to the other. A beautiful ornamental shrub, grows from 4 to 5 feet high. This improved strain of the original Hansen hardy dwarf Bush most as much fruid as a Flum of waiting for it to bear. Loads of large clusters of nearly black cherries the second year after planting. Postpaid. Prices on Hansen's improved: A1369—The miracle plant that grows like a bush and is covered bush and is a bush and is covered bush and is

### FREDONIA—King of Blacks

weeks earlier than Concord. Very hardy, a very heavy producer and a vigorous grower. The bunches are compact and the berries really have the most wonderful flavor—you won't go wrong with a few Fredonia. 1-Yr. No. 1 Plants. 50c each; 2 for 85c; 6 for 2.25; 12 for 3.98; 25 for 6.49, postpaid.

A3104—Hardiest of All
A3104—Here's a tame grape with the
tang of the wild. Best for the North,
for it is fast (15 to 20 ft. in 1 yr.) in
growth and hardiest of all. It produces
large quantities of fruit that is almost
black. Julcy., fine for arbors. No
winter covering needed. 1-Vr. No. 1
Plants. 50c each; 2 for 85c; 6 for
2.26; 12 for 3.98; 25 for 6.49, postpaid.

#### BUFFALO\_New Black Grape

A3105—A very early black grape ripening early in Sept. Vine is vigorous and highly productive. Is of about the same hardiness as Concord. Clusters are tapering and compact and the individual berries are juicy, melting, very sweet and mighty good. 1-Yr. No. 1 Plants. 79c each; 2 for i.48; 6 for 3.89, postpaid.

#### "SEIBEL 1000"\_Hybrid Grape

A3149—Very good cross of a leading French wine grape and an American wild grape. Fruit jet black, with a high percentage of sugar; very good for juice or wine and also good eating. The skins are tender and good, too. Vigorous grower and heavy yielder. Should do well over most of our country. 1-Yr. No. 1 Plants. 79c, postpaid.

#### NIAGARA Best of the Whites

A3139—Niagara is the leading favorite in "white" grapes because the large fruit has such a delightful flavor. The vine is hardy and extremely productive. Does very well here at Yankton. Your grape arbor should contain at least 6 Niagara. 1-Yr. No. 1 Plants. 50c each; 2 for 85c; 6 for 2.25; 12 for 3.98; 25 for 6.49, postpaid.

## NED CACO\_Big Clusters

A3110—The sure-crop red grape. Al-ways bears big clusters of rich red grapes, even in hottest summers. Makes most beautiful jell. As Concord is the most popular of the blue-black grapes, so Caco is the most popular of the red grapes. 1-Yr. No. 1 Plants. 50c each; 2 for 85c; 6 for 2.25; 12 for 3.98; 25 for 6.49, postpaid.

## Gurney's GRAPES

CONCORD

A3111—The most popular grape in the United States. Matures early, keeps well, ships well and sells well. The berries are in enormous bunches and are blue-black, juicy and delicious. Great for grape juice. 1-Yr. No. 1 Plants. 45c each; 2 for 75c; 6 for 1.75; 12 for 2.75; 25 for 4.75; 100 for 16.75, ppd.

All Gurney Grapes are strong, heavy plants that give quick results. They are well-rooted and will please you. The varieties listed are the hardless. They can be grown on a fence or an arbor, or in a vineyard. Plant about 5 to 8 ft, apart in rows 6 ft, apart. In planting cut the tops back to 3 to 4 buds, and prune the roots slightly. Put up a support or grapes the second year. Frune each year.

year.

The grapes we list are exceptionally hardy and with very little attention have wintered the most severe conditions. All they require is a light covering in winter to protect the buds.

## PLANT THESE 2-YEAR TRANSPLANTS

#### They Bear Sooner and Heavier

Large, heavy-rooted plants that cut planting loss to a minimum. Often produce a considerable amount the first season. We highly recommend these plants for quick

results.

#### Here's Why So Many People Grow Strawberries

No fruit is easier to grow, yields more heavily, or more quickly, with less space and less trouble than strawberries.

No fruit is easier to grow, yields more heavily, or more quickly, with less space and less trouble than strawberries.

You can set out 50 strawberry plants in your back yard, in a space no larger than a blanket, and one year later you probably will get 50 quarts of fruit. It is no trick at all to set out 100, 200, or 300 plants, and if you want to grow larger quantities for a cash crop, strawberries will make you more money per square foot of stround than almost anything you can grow. Some farmers make more money from a few acres of strawberries than onter farmers make on a 160-acre general farm. You can even get people to come to your place and pick their own berries and pav you for them.

By planting both the your place and pick their own berries and pav you for them.

By planting both the your place and pick their own berries on the your place and pick their own berries bear a good crop early, and another late. The Junebearers be ar their whole crop in a few weeks, which is ideal if you want to freeze or preserve them all at once and get it over with.

## The New ARMORE

#### The New Berry That is Sweeping the Country

Sweeping the Country

84102—A brand new Junebearing strawberry. Produces very heavy crops of large fine-flavored berries. Armore is a cross between Aroma and Blakemore and was developed by the Univ. of Missouri. Outyleids both its parents. Very resistant to leaf spot and other leaf diseases. We have had wonderful reports from all who have tried this new berry. Armore should become one of the most popular of all strawberries because of its fine quality and its ability to produce such a large crop of big berries throughout the bearing season. We don't have too many of this fine new variety on hand, so it's first come, first served. Supply limited, so order early.

## New Hybrid BLUEBERRIES

#### Now You Can Grow Them

Real Blueberries big as marbles, You can now grow the genuine Hybrid Blueberries in your own yard. For a long time we have been experimenting with big Blueberries from the east. We have found it possible to grow Blueberries in the midwest simply by adding a little aluminum sulphate to the soil to make it acid, so we send you a free package of aluminum sulphate with your blueberry plants.

#### Named Varieties of GIANT BLUEBERRIES

Truly as big as marbles. Delicious in flavor. Berries ranging up to the size of marbles and sometimes cover the plant lig, upright, shrubby plants growing to a height of 5 ft, or more and as broad. We will only sell these in collection of three, as several varieties of blueberries must be grown together to get a good set of berries. Plant 6 ft. apart. We are offering the newest and finest sorts of 3-yr.-old plants. Don't count on a yield like they get in the regular Blueberry growing area, but with favorable condi-tions you can get enough delicious ber-ries for that wonderful Blueberry pie. Some folks report amazing results.

#### HYBRID BLUEBERRY COLLECTION-A2260X

## OVER 50.000 CUSTOMERS **USE GURNEY'S POWERFUL**

#### USE GURNEY'S BUG DUST ON:

- Garden Pests House Plant Pests
- Fungus Growth
   Flies—mix with water
- Fleas and Lice on ani-mals and poultry
   Ants in house and garden
- There Are Many Other New Uses Being Discovered Every Day

#### ONE TRIAL WILL CONVINCE YOU

You can hardly realize how effective Gurney's BUG DUST is until you use it yourself and see how it works. Many folks call it the "Wonder Dust." It's easy to apply and there is no question but what that garden of yours is worth protecting. Do it the easy way with Gurney's factors. tecting. Do it the mous Bug Dust.

#### 3-WAY ACTION

Gurney's BUG DUST works not one—but three—ways. It's a STOMACH POISON—a CONTACT POISON—and a FUNGICIDE—ALL IN ONE DUST. That's the reason it is so effective on so many different garden pests as well as aiding in the control and prevention of the various diseases.

## Powerful, Yet Safe CONTACT POISON

## Fast-Acting, Positive

#### Disease-Checking FUNGICIDE

## The Outstanding Insecticide: Powerful Ingredients Used in Bug Dust

Bug Dust
Our new formula makes Gurney's
BUG DUST the best multi-purpose
dust we have ever offered. One of its
most powerful ingredients is Rotenone, a stomach and contact poison.
It is largely responsible for the effectiveness of our BUG DUST. Another
important ingredient is Lethane,
which gives effective help in the control of many insect pests. Also contains Methoxychlor, the wonderful
new insecticide. We have blended all
these different ingredients into one
any-to-use dust. Gurney's famous
Bug Dust helps make gardening easier than ever before. Just give it
try and you'll be coavineed.

## Leaves No Poisonous Residue Guracy's BUG DUST will not harm even the most delicate plants when used as directed, and leaves no poi-sonous residue. This feature alone is

#### ABSOLUTELY GUARANTEED

The reputation we have built up over many, many years in this business is behind every pound of BUG DUST. It does what we say, or your money back. No arguments, we want years to be the sole judge and jury. It must satisfy you 10%.

Ideal sprayer for trees, shrubs, white-washing, pumping, spraying, fumigating, etc. No. 4050 only 6.95, postpaid.

## Gurney's INSECT BOMB

#### For House Plants

Now it's easy to keep your house plants in good healthy condition. Convenient, safe, and always ready to use. Full directions for use on container. No. 4091—98c sach; 2 1.89 postpaid.

OUR COMBINATION FRUIT SPRAY takes the hard work and the high cost out of spraying. And, it does an excellent job of controlling insects and diseases. If you raise any fruit at all and have not tried the spray, we suggest you do. Here's why:

EASY TO USE.

#### EASY TO USE

In the past, the trouble with spraying fruit trees has been that you had to buy a lot of different chemicals, get a spray chart and then try to figure out what to mix for each different fruit and different time. It was a nuisance and you were apt to get confused and disgusted and figure it wasn't worth the effort.

Now with Gurney's COM-BINATION FRUIT SPRAY, you buy just the one package and use it for different fruits at various times during the season. No guessing, no fussing around.

Another trouble with mixing

guessing, no fussing around.

Another trouble with mixing rour own spray is that usually rou had some Lead Arsenate in to got too much in the mixture, and if you got too much in the mixture resprayed too much on your rees or used an apple tree mix on a peach tree for instance, you boing more harm than good. Now, with Gurney's COMBINATION FRUIT SPRAY, when used as directed, you will not harm fruit trees and it gives no undesirable flavor to the fruit.

## NOT JUST FOR FRUIT TREES

#### HOW MUCH TO ORDER

You just use one pound of spray with 12 gallons of water—enough to spray 4 average-sized fruit trees 5 times during the season. Figure about half that amount for young fruit trees not yet bearing.

#### HOW TO USE

All you do is mix with water and apply with any good sprayer. Do not use as a dust. Directions on each package tell you when, what and how to spray.

#### COMPLETELY GUARANTEED

4065 Gurney's COMBINATION FRUIT SPRAY..POSTPAID PRICE 1 LB....1.89 5 LB... 8.19 2 LB....3.39 10 LB...15.59

### RODENTICIDES

#### WARFARIN

Sensational New Rat and Mouse Killer

rat and mouse poison was de-veloped by the ter work was begun 17 years a go by Dr. Karl Paul Link

of their bio-chemistry department. In 1950, the University of Wisconsin Alumni Research Foundation released Warfarin for general

Warfarin is so effective because it is an anti-coagulant, causing the rodents to bleed to death internally. It is a better rodenticide for these 4 reasons:

- 1. It is much less dangerous to humans, livestock, pets and poultry.
- with two different poisons. Warfarin gets both rats and mice.
- 3. Warfarin is odorless and tasteless. Rodents do not develop "bait shyness."
- 4. Warfarin kills slowly; no dead and dying rats warn the rest of the colony.
- 4 oz. can (makes 5 lbs. of bait), 1.75; 8 oz. can (makes 10 lbs. of bait), 3.00 postpaid, 4075—Ready Mixed Bait. 1 lb. package ready to use 98c; 5 lb. size 2.98, postpaid.

#### LIQUID WARFARIN CONCENTRATE

4012—Give the rats and mice their choice of dry bait or liquid. Works wonders in cleaning out these troublesome pests. Easy-to-use—just mix with water. ½ oz. package makes 1 quart Warfarin solution bait. ½ oz. package 39c; 3 packages for 98c, postpaid.

#### PETER RABBIT REPELLENT

paint or spray on tree or shrub trunks and rabbits will not both er them. Full di-rections on each can. One quart (enough to treat

30 to 40 trees one inch in diameter), 1.79; 2 quarts 3.45,

#### RODENT RUIN for Killing Moles and Gophers

4001—Drop a cake in the mole run or gopher hole and your troubles are

your troubles are over. Acts as a stomach poison. Gets them quick. Can't harm poultry, domestic pets or animals. This mole and gopher killer DOES THE WORK and is easy to use. Large box (90 pieces), 50c; 2 boxes, 95c, postpaid.

### SOIL BUILDERS-PLANT POODS AND STIMULATORS

#### SUPER PHOSPHATE

4084—For blooming plants. Many

#### "NODAMPOPF" Sphagnum MOSS

## For Better Plants, Lawns, Trees, Feed Them

## Gurney's GREEN

Easy-Safe-Inexpensive to Use

If your plants get hungry and sickly, with yellow leaves, stunted growth and coloriess flowers, they need food and water and cultivation. You can either spend hours fertilizing these hungry plants or you can use Gurney's GREEN THUMB PLANT FOOD and do a better job in a short time. In fact, we don't know of anything better for starting newly planted things off right. Besides being an excellent food for indoor and outdoor plants and flowers, it works equally well on lawns, shrubs, trees and vegetables.

#### EASY TO USE

One 16 oz. package of Gurney's powdered GREEN THUMB PLANT FOOD makes 30 gallons of liquid fertilizer. Full, simple directions on package tell how much to use for various plants, trees and lawn. You'll be surprised at how easy it is to fertilize this way and how little it costs. You'll also be surprised at the results!

GURNEY'S GREEN THUMB PLANT GURNEY'S GREEN THOME PLANT FOOD is composed of important plant nu-trients and when mixed with water they become immediately available to the roots of hungry plants, lawns and trees. You can see results in a short time.

## **ACTION STARTS AT**

You just mix 1 tablespoonful with a gallon of
water and pour around
plant just like you were
watering it. Being a liquid,
the solution goes directly to
the roots and action starts
at once. There's no waiting for results—you see
them in a matter of days.
The solution is odorless and non-poisonous. Contains the nutrition that growing things need.

## ALFALFA SAVE, BUY DIRECT

#### **BEST NORTHERN GRIMM ALFALFA**

Our Best lot of Northern, hardy Grimm Alfalfa grown right here in the Dakotas and Nebraska from selected fields. One of the hardiest origins of Alfalfa seed we know of anywhere. Grimm will make lots of fine quality hay, fine-stemmed with a heavy tonnage per acre.

Our seed never looked any better. It's bright, new crop, clean, plump berry seed 991/4 % pure, and absolutely weed free. Grimm has the spreading crown and branching root system that has made it one of the most popular of all alfalfas. We heartily recommend this fine lot to you. Check this lot and price anywhere for comparison. Sample gladly sent on request. See Item 17, In Price

#### BEST NORTHERN DAKOTA 12 **Favorite of Thousands**

The old standby and favorite alfalfa of thousands of farmers. Fully winter hardy, grows taller than other varieties. Dakota 12 adapts itself perfectly to a wide range of soil and weather condi-Big, plump berries, free from weed seed and ready to grow. Order this 991/4 % pure lot of alfalfa now. See Item No. 14, In Price List.

#### LOT GRIMM ALFALFA With Sweet Clover

Our most popular low priced alfalfa for soil building, containing about 10% sweet clover. Most every farmer needs a green manure crop and this is the an-

Grimm is one of the hardiest of all alfalfas with heavy branching, deep roots and the small amount of sweet clover will give extra heavy top growth for plowing under.

It's 99% crop pure and a Real Buy! You'll be mighty happy with the appearance, heavy growth, and quality of this fine lot. Hundreds of farmers are using this year after year. You will get results, too. Plant about 10 to 12 lbs. per acre. See Item No. 26, In Price List.

#### RANGER ALFALFA Wilt-Resistant, Certified

We again sold more Certified Ranger last spring than we ever had before. Ranger is hay. Our seed is produced from extra narray foundation seed stocks, packed in bushel bags with seals and blue tags attached. It's tops in color, purity and germination and free of weed seed. No. 1 quality, certified Blue Tag Seed,

tified Blue Tag Seed,

Ranger will survive on wilt-infested soils where other alfalfas, not wilt-resistant, will be weakened and the plants kill out on a much higher percentage during the winter months. Ranger will survive and remain productive for a much longer period of time. No need to plant Ranger over every two or three years. Our Ranger is specially priced for spring planting. Take advantage of the low price offered on Certified Ranger seed. See Item 24, In Price List.

#### LADAK ALFALFA

Ladak is unusually hardy especially un-

#### BEST NORTHERN COSSACK The Favorite for the North

Cossack is one of the hardiest of all alfalfas. Particularly adapted to South Dakota and surrounding states. Cossack produces a very fine stemmed hay doesn't winter kill easily and yields a heavy tonnage per acre. Plant this if you are in doubt as to a good variety Our Cossack alfalfa seed is extra-fine quality this year. We got out in the mar ket early and bought our choice of lots for Gurney customers. It is all bright clean, plump, noxious weed-free seed you will be proud of. In Dakotas, Minnesota Iowa and Nebraska you will find Cos sack always popular with farmers. High Purity 991/4% and tops in germination. See Item No. 20, In Price List.

### CLOVERS

FINEST QUALITY

#### BEST IDAHO RED CLOVER

Idaho-grown Red Clover is always worth a premium over Red Clover grown in the Central States. It is the most beautiful color of all Red Clover, big, plump, purple berries and free of weeds. This Idaho seed always has a strong germination. If you want some thing extra nice in Medium Red Clover, order this Idaho grown seed. A heavy seller with us because it is in demand by

those who want the best. We only ask a small premium price for it. Well worth the difference, and you will be sure to like it. See Item No. 34. In Price List.

#### BEST MAMMOTH RED CLOVER The Real Soil Builder

A seeding of Mammoth Red Clover builds up the soil fast. One of the heavibullos up the soil rast. One of the neavi-est yielding of all Red Clovers. Mam-moth grows taller and produces a heavier cutting of hay than Medium Red Clover. The second growth is fine for plowing under or for pasture. Our Mam-moth Red Clover is top quality. Hardy, Northern-grown seed, high purity and germination. Plant 8 to 10 pounds per acre. See Item No. 36, In Price List.

#### BEST ALSIKE CLOVER

Alsike is a valuable perennial legume actually higher in feeding value than Red Clover. Grows on wet land better

than Red Clover, stands more acid soil conditions. Our Alsike is a beautiful green color, makes a fine combination along with Timothy. Easy to establish a stand, plant five to six pounds per acre. You can't beat Alsike for pasture and is wonderful for hay. Finest quality new crop seed, tops in every way in purity and germination. More farmers are switching to Alsike every year. See

#### BEST NORTHERN MED. RED CLOVER Good Soil Builder and Producer

Our highest quality 994% purity Medium Red Clover grown right in the Central States of the Combelt. Good, bright color seed of new crop, free of weeds and high germination. We sell a lot of this Home Grown Medium Red Clover because of the freight saving and it will give you good results at a saving. Red Clover is awfully hard to beat for soil improvement and high quality of hay crop. You will like this lot of seed and it's priced right. See Item 33, In Price List.

#### NEW LADINO CLOVER

seeded at race of a bound of two per wre to your present pasture or your Brome-Alfalfa seeding. Try some Ladino this year, Very leafy foliage. Recovers and grows quickly after grazing. Good milk producer, Fine for hay, too. A heavy producing Clover

#### LOT IDAHO RED CLOVER

This lot Idaho is 99% crop purity (95% Idaho Red Clover), the other 4% other crops such as Alfalfa, Sweet Clover, Alsike, and White Dutch. This is a beautiful lot of purple berry, Idaho Mountain Grown Red Clover. But, it is carrying a small percent of other crops. Otherwise, would easily be worth more.

Worth more.

All new crop, bright and tagged free of noxious weeds. Germination 90% or better, Ideal for green manure crop, hay or pasture. Grown in Idaho. See Item No. 39, In Price List.

#### SWEET CLOVER

#### White and Yellow SWEET CLOVER Mixed-You Get a Saving Here

This mixture of White and Yellow Sweet Clovers saves you morfey, but still is better for pasture. The Yellow Blossom makes earlier pasture and the White Blossom makes later pasture, stretching pasturing season by several weeks Ideal for soil improvement, by plowing under for a green manure crop. The seed goes a long way and your pasture is bet-ter quality, finer stemmed, lasts longer

By buying White and Yellow Sweet Clover Mixed, you get good quality-but it costs you less. For many years, now this has been one of our most popular mixtures. See Item No. 46, In Price List

#### **HUBAM Annual White Sweet Clover** The Yearly "Cash Crop"

Plant Hubam this year and cash in the first year on this fine crop for pasture, hay or seed. Makes its full growth the same year it is sown. High in protein. Excellent to plow under for a green manure crop because Hubam stores up lots of nitrogen in the soil.

Hubam keeps your soil healthy. Excellent for one year crop rotation program. Seed with your Oats, Barley or Wheat, and take off a cash grain crop. Then, Hubam will furnish you with pas ture, hay or seed crop. Plant 12 to 15 lbs. per acre in early spring. Top-quality, new crop seed. Hubam is often called the wonder crop. See Item No. 58,

#### **BEST NORTHERN YELLOW BLOSSOM** This Is One of Our Very Best Sellers

Biennial Yellow Blossom (2-year type) Sweet Clover is much finer stemmed than white. Our new crop Yellow Sweet Clover is 991/4 % pure, high germination, plump berry seed. We sell carloads of this triple recleaned seed every year. Free of all noxious weeds. Buy your Sweet Clover at Gurney's and save the difference. For soil improvement, for pasture or hay, the Yellow Sweet Clover is best. All bright, clean, new crop seed. See Item No. 50, In Price List.

#### SWEET CLOVER, Formerly White

Most White Blossom (2-year type) seed contains a small amount of Yellow Blossom. This lot we list as Sweet

Clover is the White Blossom type Clover is the White Blossom type. Sweet Clover is the perfect soil builder and should be used on all farms in regular crop rotation. Ideal as a green manure crop and for hay. This type Sweet Clover grows taller and produces more growth than regular Yellow Blossom. Many of our good customers like it best for that reason. Gurney's selected this seed early at harvest time, and are passing it on to you at the right price. Plump berry, new crop seed, noxious weed-free. Be sure to order plenty. See Item No. 48, In Price List

#### MADRID SWEET CLOVER

The new biennial yellow sweet clover that has shown superiority in yield and other favorable characteristics. One of the finest for the northern plains region. See Item No. 52.

### BROME and OTHER DESIRABLE GRASSES

#### BEST HOME GROWN BROME **Finest of all Pasture Grasses**

Hardy, home-grown Brome Grass like this lot makes more pasture than any other perennial grass we know. Starts early in spring, lasts later in the fall. All livestock like Brome. Doesn't winter kill, perfectly hardy, Northern grown seed from selected fields. Brome like this stands lots of hot, dry weather

Selected fields. Brome like this stands lots of hot, dry weather and carries more head of livestock per acre. Our finest seed.

How to Sow—Sow early on a firm seed bed, harrow or roll in well—rolling is best. A fine combination planting is 4 lbs. alfalfa, 12 to 15 lbs. of Brome per acre. Add a pound or two of Ladino per acre if you want extra fine pasture. Sow Brome alone 15 to 20 lbs. per acre. See Item No. 71 in Price List.

#### NEW LINCOLN BROME **Favorite New Variety**

New, hardy, selected strain of smooth Brome perfect for the Dakotas, Nebraska, lowa, etc. This long lived perennial gives excellent spring, summer and late fall pasture, and a high quality hay. Equal in protein content to alfalfa. All bright, clean, beavy weight seed. Plant 15 to 20 lbs. per acre alone or 12 to 15 lbs. with alfalfa. It's a dandy lot of home-grown seed. See Item No. 73 in Price List.

#### BROME Northern Special

Here is a dandy lot of high quality Brome you can depend on to do a real job for you. Fine for pasture use or hay. This is all northern-grown seed that is adapted to northern growing conditions. Plant it along with alfalfa, clovers or grasses and you'll have good results at a lower cost per acre. See Item 72 in Price List.

#### **BROME GRASS MIX FOR DRY LAND**

This mixture contains over 50% Brome with the balance in other hardy native dry land grasses such as Crested Wheat, and others that do well in the drier sections of the United States. Stands the hottest sumers or the coldest winters. Sow 12 to 15 lbs. per acre, early. Roll in well on a firm seed bed. Add 4 lbs. of alfair to the acre if you wish. See Item No. 117 in Price List.

#### PERMANENT PASTURE MIX Half Clover and Half Grasses

To insure a good stand everywhere, this mixture includes Alfalfa, Red Clover, Alsike, Kentucky Blue, Rye Grasses, Timothy, Fescues, etc. See Item No. 114 in Price List.

#### LOT HALF AND HALF (WITH) SWEET CLOVER

If you want us to add Sweet Clover, we can supply the same mixture and add Sweet Clover. See Item No. 113 in Price List.

#### CREEPING FESCUE for Shady Places

We have more and more requests every year for a grass that will grow in the shade of trees, in parks, lawns, etc. This fine-

leaved grass blends in nicely with Kentucky Blue, Red Top and other grasses. But, best of all, it does especially well in the shade. Likes sunny places, too. Use regular law seedling rates. 5 lbs. 3.95; 10 lbs. 7.45; 25 lbs. 15.95. All Postpaid Prices. See item 96 in Price List.

#### TALL WHEAT GRASS

The new tall, branching type grass which shows tolerance to very wet alkaline conditions. Very useful on low-lying land generally considered unsuitable for production of other tame grasses. Our supply is limited, order early. See Item No. 38.

#### REED CANARY GRASS

Spring is a fine time to plant Reed Canary Grass. Figure on 6 to 8 pounds per acre. Seed in low, wet soils, drainage ditches, gully control, etc. Many farmer customers also plant Reed Canary even on drier soils with good results. Alsike Clover, Red Top, and Ladino Clover make good companion crops with Reed Canary where water stands on field for very short periods of time. Otherwise plant Reed Canary alone on overflow soils. See Item No. 95 in Price List.

#### ALTA FESCUE

Alta Fescue has been short in seed supply and high priced, but we are glad to tell you this year we can supply new crop Alta Fescue at attractive prices. Alta Fescue can stand a lot of dry weather. Extra-strong, deep rooted plants make hay or pasture of high forage value. Plant by itself or along with other grasses or clovers. Not fussy about soil types. Does well along with Ladino, Alsike, Birdsfoot Trefoil, or Alfalfa and Brome. See Item 86 in Price List.

#### PIPER SUDAN

A new sweet type Sudan, introduced by the Wisconsin Agricultural Experiment Sta-tion. A very high forage yielder and has a low acid content. Piper Sudan is very pal-atable and will produce a good regrowth after pasturing. Plant 20 to 25 ibs. per acre in warm soil. See Item 100 in Price List.

#### SWEET SUDAN

Sweet Sudan produces a lot of sweet, juicy, palatable forage feed for all livestock. Developed after years of research. Sweet Sudan has far greater disease resistance and non-shattering qualities. Produces a much heavier growth and it remains green

a favorite with many of our customers. Order ear-

## GURNO

#### SORGHUMS

#### EARLY RELIANCE SORGHUM

A new grain sorgalum for South Da-kota, fine for combining and similar to Norghum but far superior in standabil-ity after a killing frost. Has larger seed than Norghum and adapted to a wider range of planting dates. Germinates readily even under limited soil moisture, assuring good, uniform stands. If you have never tried Early Reliance Sor-ghum be sure you do so. See Item No. 163.

#### Field Tests Prove "ARASAN" Increases Yield -

The cause of poor stands in pastures often is caused by an obscure and seldom recognized disease. It is a phase of root rot, which causes pre-emergence blight. The seeds of grass and small legumes, being very small in size and carrying very little food reserve, are easily killed off by adverse weather and disease.

Summary of 1951-52 field tests by DuPont showed increased stands after treatment with Arasan as follows: Alfalfa, 32%; Red Clover, 57%; Lespedeza, 59%; Sudan, 41%; misc. grasses, 25%.

Arasan protects seed from growth of fungi on the seed and in the soil

of fungi on the seed and in the soil which cause seed decay, damping off, seedling blight and root rots.

We recommend that you treat the following with Arasan:

LEGUMES
Alfalfa
Red Clover
Alsike
Ladino Clover
White Dutch
Birdsfoot Trefoil GRASSES GRASSES Timothy Meadow Fescue Red Top Bent Grass Kentucky Blue

Arasan does not take the place of Nitragin. Add Nitragin after treating with Arasan.

It is easy to treat your own seed. Just follow directions on the can. It takes 6 to 8 oz. to 100 lbs. of seed.

Catalog No. 4066. 8 oz. can, 1.05; 2 lb. can, 3.25; 4 lb. can, 6.00. Postpaid.

## \*\*\*\*\*\*\*\*\* It Pays to Inoculate with "NITRAGIN" \*\*\*\*

Don't spend good money for clover and alfalfa seed without inoculating it. It not only does better, but must be inoculated to take Nitrogen from the air and put it in your soil.

By inoculating with "Nitragin" you make full use of the legume's ability to fertilize your soil by adding Nitrogen to it. Makes better clover stands and crops and better crops to follow. You should inoculate even if land was inoculated When ordering, always state name of

# Famous RNEY'S GOLDEN

## NOW YOU CAN SAVE Up To \$3.00 Per Bu.

### You Can Save By Buying DIRECT!

There is no longer any reason for paying dealers the high commissions they must have for selling hybrid seed corn. Dealers were necessary to spread the gospel when hybrid corn was new. They are no longer necessary. Since they add \$2.50 to \$3.00 per bushel to your seed corn cost, why not save this by buying direct.

#### There Is No "BEST" Corn

It is not necessary to buy through a deal-to get top performing seed corn. You

have all noticed the seed corn signs along the highway and heard the radio advertising. All claim to be the best. They can't all be best, of course. The fact is, there is no "best" hybrid corn. There are many good ones but there is no single variety or brand that will come out on top under all circumstances. Ours is equal to any, regardless of price, and year in and year out, will be on trop se often as any other single be on top as often as any other variety.

#### **Most Reliable Companies Have Good Corn**

You can be pretty sure any of the better established firms nowadays have good corn. In most cases, there is little to choose between them because general principles of hybrid corn construction are getting to be known through the industry, like they are in automobiles. Of course, we know these principles, too. Our seed corn is at least equal to any produced today, regardless of price, and—it's up to \$3.00 less.

This difference is due solely to our method of direct selling. Our seed is as carefully produced, and costs as much by the time it is bagged and ready for sale, as the highest priced seed on the market. You get it for less because we sell direct.

#### NO DOWN PAYMENT NECESSARY

Some of you folks may want to order now but find it more convenient to pay later. We will hold any seed corn order till March 1st without down payment. This assures you of the corn you want when you want it.

### **Modern Equipment Means Lower Production Cost**

We have spared no expense in obtaining the finest, most modern corn equipment that money can buy. This picture shows one of our modern detasseling machines in operation.

#### Northern Grown for Northern Planters

Gurney's Golden Hybrids are raised right here at Yankton. They are northern-type hybrids, adapted to conditions in this part of the country, and are hybrids that will adapt themselves quickly to soil and climatic conditions. All Gurney's Golden Hybrids are cold-resistant, farmer-type hybrids that are not hard and flinty. The ears hang on well in the fall but pick easily by hand or machine. Every bushel is treated with special dust to protect against soil-borne disease.

#### A Field of Gurney's Golden Hybrid Corn

Gurney's Golden Hybrids have everything. Foundation seed is the finest. Fields are isolated at above standard rules. Extra time is spent on detasseling and grading. The Gurney's Golden Hybrid seed corn you receive has cost as much to produce as any other brand of seed corn on the market. It costs you less because we sell the most economical way possible—by mail.

#### IS YOUR SEED CORN WORTH WHAT YOU ARE PAYING?

Competition in getting dealers has forced hybrid seed corn companies to bid up dealer's commissions to a very high point. You pay that commission on each bushel you buy through a dealer. We can't see any reason why you should keep on paying it. Can you?

#### Luow Your Maturity

Take into careful consideration your normal growing season and, remember, the law of averages proves that it does not hay to try to stretch your luck. In other words, if you live in alocality where a 100 day corn is about right—don't take a chance that you are going to have an extra-long growing season and plant a 110 day corn. Occasionally it works; but don't count on it. The numbers of our Gurantia of the control of the

ney's Golden Hybrid varieties indicate approximate maturities for our territory. You should also bear in mind the fact that corn matures about five days earlier for each 100 miles it is moved south, or five days later for each 100 miles you move it north. Favorable weather conditions also play an important factor in the over-all maturity. Again we say—don't try to

#### WHY NOT PLANT ROUNDS **GNLY S6.25 PER BUSHEL**

If you have the right plates, rounds plant as well as flats. They come right off the same ear as flats and will produce exear as flats and will produce exactly the same kind of corn Rounds sell for less because so many people cannot get plates to plant them. We have greatly reduced the price and we know it will be worth your while to get plates for planting them.

We can supply plates for planting rounds at standard prices, plus postage. See next page for full information and

GURNEY'S, Yankton, So. Dak.-"Northwest's Largest Seed and Nursery House"

## SEED CORN YOU CAN DEPEND ON

## DEPENDABLE OPEN POLLINATED VARIETIES

## The Truth About Open Pollinated Corns

Why should I plant Open Pollinated Corn? That is a good question in view of the splendid records Hybrid Corn has been making. The answer is—you should plant it ONLY IF IT DOES BETTER FOR YOU IN YOUR LOCALITY. We realize that a good Hybrid Corn suitable for your locality is superior to good Open Pollinated varieties. The fact remains that there is a large "marginal" corn growing area

where, year in and year out, OPEN POLLINATED CORNS will produce a BETTER CROP—MORE OFTEN and for LESS MONEY. You fringe-area corn growers can PLAY SAFE with the proper Open Pollinated Corn. Popular demand from you folks in the northern corn belt has made us the logical OPEN POLLINATED SEED CORN CENTER OF AMERICA.

#### **Gurney's Open Pollinated Seed Source**

Gurney's Open Pollinated seed corn is NOT bought on the open market "catch as catch can." We grow hundreds of acres of Open Pollinated corn and know the seed source of every bushel sold. This insures purity of strain, which is the most important single factor to you Open Pollinated corn growers.

We have been in the Open Pollinated seed corn business about as long as any other company in the entire country. Many of the corns we are offering were our own introduction—varieties that have been doing a wonderful job for years. If you plant Open Pollinated seed corn—play safe—order from Gurney's and be sure you get what you order.

#### **Extra-High Germination**

You get "tops" in germinated you buy Gurney's Open Pollinated seed corn because we can utilize our huge drier and take in the seed before cold weather. All of you farmers realize the extreme importance of high germination, and with every bushel of Gurney's Open Pollinated seed corn, you get the very best germination possible.

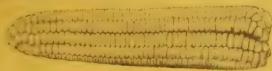

#### **Careful Grading**

We are just as careful and accurate in our grading of all Open Pollinated corn as we are with our famous Gurney's Golden Hybrids. In fact, we use the same equip-ment. You won't run into any "snags" at planting time with any of the corn listed

#### **Gurney's Famous RAINBOW FLINT**

Gurney's "Tall" RAINBOW FLINT. We originated this corn in 1915 and are proud of it. Stalks 7 to 8 ft. tall with two ears to the stalk and leafy clear to the ground. Heavy yielder. Highly drouth resistant. Excellent for fodder and can't be beat for hogging off. So widely adapted it can be successfully grown clear to the Canadian line. Price: 5.60 Per Bu., F.O.B. Yankton.

#### **Gurney's AUGUST 15th**

(Fine for machine picking.) Here's an open pollinated corn that we are proud of because we know it will do a job for you. This is our origination. Plant it by mid-May and you can generally husk it by August 15th. If the early Hybrids have been giving you trouble—try August 15th—IT'S A CINCH. Price: 5.40 Per Bu., F.O.B. Yankton.

## IMPORTANT NOTICE

### On How We Ship

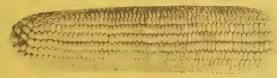

If you order three bushels or more of either hybrid or open pollinated, we prepay the freight (not express or parcel post) to your station in any of these states: South Dakota, North Dakota, Minnesota, Iowa, Nebraska, Illinois and Wisconsin. In all other states, if you order three bushels or more, we do not pay freight, but allow 50c per bushel discount off the above prices to help with the transportation. No allowance can be made on orders of less than three

Freight is the economical way to ship. Allow at least two weeks time to receive freight shipments—SO ORDER EARLY. On late orders of three bushels or more, which must be sent by express or parcel post to reach you in time for planting, you pay only the difference between express or postage, and reg-

A freight allowance of 50c per bushel on orders of three bushels or more will be made to customers who take their corn from the store, thus saving us de

Please do not ask us, to ship seed corn C.O.D. Such shipments are unsatisfactory in many ways, but mostly because they make a substantial increase in the cost to you. We have discontinued them altogether.

No seed corn shipments can be made until fully paid for.

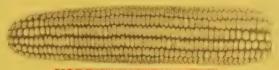

#### **MINNESOTA 13**

This is a medium-early corn. Suitable for central South Dakota and similar climates. A little later than Haney strain but LARGER ears and a HEAVY YIELDER. Stands 6-to-7 feet tall. Our exceptional strain of Minn. 13 will LOAD YOUR CORN CRIB. Price: 4.60 Per Bu.,

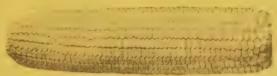

Fro.B. Yankton.

MINNESOTA 13 (Haney Strain). An excellent yellow corn that looks about like regular Minn. 13 but it is earlier. A very fine corn for you southern North Dakota growers and similar climates. Widely adapted and a good sound investment. Price: 5.60 Per Bu., F.O.B., Yankton.

#### NORTHWESTERN DENT

Beautiful red dent with yellow cap. Wonderful for fodder or grain. A hardy, heavy-yielding, drouth-resistant corn for you folks in northern South Dakota and like climates. Its EXTRA FEED VALUE makes it ONE OF THE BEST. Price: 5.40 Per Bu., F.O.B. Yankton.

#### **Gurney's SILVER KING**

Here is the open pollinated white corn that is a real beauty. Loads of big, beautiful, white ears often 8 to 12 inches long. They generally bring a nice premium too. Fine for central to southern South Dakota and like areas. Will really give the Hybrids a "run for their money." Price: 4.60 Per Bu., F.O.B., Yankton.

#### FALCOMER

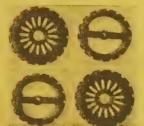

You folks in North Dakota and northern Minnesota that want an early, semi-dent, can't go wrong with this wonderful producer. It is hardy and the YIELDS WILL AMAZE you northern corn growers. Falconer is truly a drouth-resistant, northern-type corn that always turns in an excellent performance. Price: 5.60 Per Bu., F.O.B. Yankton.

#### DE WOLF'S PROLIFIC

This is the largest, heaviest-producing, Open Pollinated variety we are offering. De Wolf's Prolific is five to seven days later than Minnesota 13. Stands very well for Open Pollinated corn. An excellent variety for southeastern South Dakota, eastern Nebraska, and similar climates. Not too much available, so you'll have to hurry. Price: 4.60 Per Bu., F.O.B. Yankton.

#### Planter Plates for Rounds and Small Flats

As a service to our customers we have decided to stock planter plates for rounds and small flats, since your home dealers often do not carry them. We have them for John Deere and McCormick-Deering only, at standard prices plus postage. We cannot supply other makes this year, but will stock them in the future if there is sufficient demand.

John Deere plates are \$1.10 each and McCormick-Deering plates are \$2.02 each. On John Deere plates, be sure to tell if you want the old style with crossbar or new style without crossbar.

inches in diameter and borne profusely. Some are honey-scented.
A variety of brilliant colors. Will
winter over if you give it protection. Pkt. 10c, ppd.

1271—WESTWOOD BEAUTY. Large, dark red flowers with fringed edges on long wiry stems. Likes sunshine and is very fine for cutting. Pkt. 25c, ppd.

#### GERANIUM

Easy to Grew

1094 — Double and Single Mixed. This fine seed will produce both double and single flowers in many gorgeous colors. The foliage and flowers grow large, making them excellent hous plants. One packet of seed will produce many good plants. If you have never tried raising Geraniums from seed—be sure and try it this year. Pkt., 15c, postpaid.

### PORTULACA—Rose Moss Likes Hot Dry Location

No other flower makes such a dazzling display of color and beauty as a bed of many-colored Portulaca. They grow to a height of 4 inches. The hotter, dryer and poorer the place—the better Rose Moss blooms. Fine for borders and a valuable addition to any flower garden.

1195—DOUBLE FINEST MIXED. A select strain of fully double flowers in every color imaginable. Pkt. 150; 1/16 ex. 35c, ppd.

35c, ppd.
1196—SINGLE MIXED. Our best rainbow mixture. Pkt. 10c; ½ oz. 35c, ppd.

Like the Florists Grow

This "old-favorite" flower
has been greatly improved.
America's most popular cutting flower; also prized for
planting in borders or beds.

1024—Tetra Snaps Mixed.
A new race of snapdragons.
The result of treatment with a
special chemical. Larger flowers, more ruffles, bigger and
more brilliant spikes. You will
get all colors in this mixture.
Pkt. 25c, postpaid.

1020—Giant Flowered RustProof Mixed. An All-America
Winner—These new giant
Snapdragons grow about 3 feet
high, and are covered with immense spikes of brightly colored flowers. Pkt. 10c; 1/2 ez.
20c, ppd.

1022—Stop Light. So bright
that the first sight stops everyone in their tracks. The spikes
are immense and of the most
intense glowing vivid red. Will
bloom and bloom and bloom.
Pkt. 15c, ppd.

# Gurney's Hardy Northern-Grown **EVERGREENS**

All overgreens listed here are hardy, and all sizes offered as "S&E" or "E W" have been transplanted three times to make compact, heavy root systems. These strong, well rooted specimens will grow better for you, and when you order two overgreens of a kind we will pick out matched trees so your planting will look better.

#### B&B Means Balled & Burlapped

All evergreens listed as "B&B" are well-shaped specimen trees dug with their roots still in a solid ball of rich earth, tust as they have been growing in the nursery for years. This ball of earth is carefully wrapped in burlap and bound with twine to keep it from breaking. This is the best way to buy evergreens, but they average from 60 to 90 pounds per tree and must be shipped Express Not Prepaid. Ask your local Express Agent for an estimate on the Express charges for such trees, and if you feel they are higher than, you wish to pay, we suggest that you order some of our Hoot-Wrapped trees

#### R W Means Root-Wrapped

# LOW-GROWING EVERGREENS PFITZER'S JUNIPER SAVINS JUNIPER

#### SILVER JUNIPER

(Scopulorum)

IN9-This upright va riety is very popular be-cause of its outstanding silver foliage and its upright habit of growth.
Extremely hardy and will
stand lots of heat and
drouth. Can be kept to
whatever height you desire by shearing.

### Plant ROSA MULTIFLORA For Field or Yard Fence

A3360—Rosa Multifiora grows vigorously in even the poorer soils, requires little ground space (its final height and spread is 6 to 8 feet) and has no spreading roots to rob ad-

It forms a dense, thorny barrier that will stop any livestock, excepting an occasional "breachy" sow. Planted as yard hedge, it stops children, dogs, bicycles, yet is a thing of beauty, having loads of small white single roses followed by masses of red berries that last through the winter. In addition, it provides food and protection for birds and small game.

You can use it as a pasture divider, contour guide, snow stop, and firebreak (there is no grassy growth beneath its branches). Its deep, fibrous roots make it ideal for erosion control. Not suitable for planting on city lots or small suburban lots because of the space it requires.

This plant has probably received as much publicity as any. We do not recommend it for planting in large quantities north of central Ia. and Nebr., unless there are established plantings in your area. If you are in doubt we suggest that you try at least a dozen on your own land and see what it will do for you.

Set 18 inches apart. Beware of the tiny little "darning needle"-sized plants that are being quite widely offered. You are apt to take a terrific loss on such a small grade of plants. We ship heavy sizes only. Here are our postpaid prices:

12	25	50	100	1000

# The Shade Tree That Has Set a New Standard of Beauty

Set a New Standard of Beauty
A4284 — Harlequin, in our
opinion, is the most beautiful
shade tree in existence today. It
is a Norway Maple with a variegated leaf. The young tree pictured at the left shows the fine
shape of this wonderful new
tree. If you live where you can
raise Harlequin. The symmetrical, round top makes it a beauty
and it grows to a height of
about 30 ft. We recommend it

for the boulevard because doesn't get too large or tall.

doesn't get too large or tall.

We found out about this tree a few years ago and have been watching it with interest. It didn't take us long to realize that Harlequin was one tree we wanted to be sure to offer. We are listing them this year for the third time. Our supply is very limited, so order early. Be the first in your neighborhood to try this beautiful new variety. While they last, 4 to 6 foot trees: 4.15 each, Express not prepaid.

SCHWEDLER MAPLE

The Red Leaf Maple

The Red Leaf Maple

A4286—This tree can really "do things" for that lawn of yours. The leaves are a beautiful purplish-red in spring, thereby contrasting with all of the green foliage. Gradually these high-colored leaves soften to bronze and finally to a deep waxy green. It has a round symmetrical head. A long-lived tree that will be permanent and add beauty for years to come.

Each Per 3 Per 5

# Shrubs Add Beauty And Value to Your Home

Nothing is as unsightly as a home with a barren foundation. At a small cost you can plant Gurney shrubs that will add lots of beauty and actually increase the value of your home.

HOW TO PLANT—Planting instructions are sent along with your order but a good "rule-of-thumb" is to plant low shrubs 2½ ft. apart; medium growers 3 to 3½ ft. apart. Immediately of lowing planting, be sure to prune all shrubs back to one-third their original height. This equalizes root loss.

#### DWARF SPIREAS

Oak Leaved SPIREAS Hardy Dwarf Ninebark

Hardy Devart Ninebark
A3913 — (Physocarpus,
Opulifolius nana). A compact dwarf shrub, 3 to 4
feet, covered with clusters
of white flowers in May and
June. Attractive, bright
green follage staying late in
fall. Very hardy and excellent for any type of planting, including hedges.

# LILACS

The Late Bloomer
A3868 — Chinese
Pink Lilac (Villosa).
A late lilac of compact growth. Blooms in LATE June. Loose panicles of light panties of light
pin kish-lavender. Prolific.
BLOOMS 2ND
YEAR AFTER
PLANTING. If you've never the Villosa, you the Villosa, you what you're missing. 18 to 24 in., 98c each; 3 for 2.79, postpaid.

(Except George W. Gurney, Patented, and

Select 2-year No. 1... 1.19 3.45 6.49 11.98 Standard 2-yr. No. 1½... ... 98 2.85 5.49 10.49 Be sure to specify grade on your rose order.

A3586 — Red Radiance. The fool-proof red rose noted for hardiness and free blooming qualities. It will grow and produce to duce hundreds of blooms in poor soil with little care. Never seems to rest. A3530—George W. Gurney. Double, blood red. See description at

A3535 — G o l d e n Charm. A deep golden yellow on long stems. Fine for cutting and de-lightfully fragrant.

A3587—White Radiance. The hardiest white rose. Clearest pure white. Long pointed buds and big full flowers. Very free blooming. A3600—Talisman. No better known Tea Rose. Beautiful, long pointed buds on long erect stems. Fragrant, rich green fo-liage. A3522—Etoile De Holland. Wonderful red for cutting. Fiery, crim-son, long pointed buds which open to full-pet-aled, brilliant flowers. De-lightfully fragrant and will add lots of color to your garden.

A3585—Pink Radiance. The best to bloom, best to resist heat, drouth and disease. Big, full. brilliant rose-pink; loaded down with blooms all

A35 i 4—Contrast. One of the most beautiful Tea Roses, really more beautiful than the illustration. It's gorgeous with its unusual color combination. Good grower, too.

A3579—Poinsettia. A glowing poinsettia red. The buds are beautifully shaped and it flowers on a strong growing plant.

A3560 — McGredy's Yellow. Very large and has a beautiful tea rose shape. The heavy, dark green foliage makes it exceptional.

A3513 — Countess Vandal. Long pointed buds on upright stems. Very attractive blend of pink, copper, gold and salmon.

A3550—K. A. Victoria. Probably the most popular of all white tea roses, and rightly so. Strong growing and beautiful.

A3521—Editor Mc-Farland. A big, double, glowing pink. One of the finest of all pink roses. Always has the most

#### **How We Grade Roses**

When our Roses are dug and brought in from the fields, we separate them into 3 grades:

- 1. Select Two-year No. 1.
- 2. Standard Two-year No. 11/2.
- 3. Light.

Most nurseries make a separate grade of the Jumbo ones, and charge a premium for them. We put these extra large ones right in with the Select Twoyear No. 1, so you get the extra value.

We do not sell "Light" grade. You wouldn't want them. We put those back in the ground to grow some more.

Gurney's is a member of the American Association of Nurserymen, and our grading complies faithfully with their Horticultural Standards, You can't buy roses anywhere that are better, regardless of how much you pay.

#### Gurney's Rose **GUARANTEE**

We guarantee all Gurney's Roses to be large, two-year-old, field-grown plants, healthy and free of disease. They are state and government inspected, and carefully handled, packed and shipped. If they do not satisfy you 100% on arrival, return promptly at our expense and we will replace or refund your money in full, which-ever you prefer.

**Everblooming POLYANTHUS Roses** 

Prices on 2-yr. No. 1 Grade: 1.19 each; 3 for 3.45; 6 for 6.49; 12 for 11.98, ppd.

These are the extreme hy hardy, bushy-type roses that are absolutely covered with blooms all summer. Compact growing and fine for using in rose beds, among shrubbery or for a cemetery planting. Will stand a great deal of neglect and still make a fine showing throughout the summer.

A3660—Golden Salmon,
Bright orange-scarlet
flowers in huge clusters.
Growth vigorous and
bushy. First really orange
Polyanthus.

A3663 — Ideal. Dark velvety crimson blooms. Compact and bushy with beautiful, glossy, leather-like leaves. Blooms profusely and like its name, is an Ideal Rose.

A3653—Catherine Zie-met. Indispensable for the garden or perennial border. Always covered with its dainty little dou-ble white flowers in great clusters over clean fine cut foliage.

#### Polyanthus Special

A2622X—1 each of Golden Salmon, Ideal, Ziemet — all 3 for only 3.29, ppd.

6.49; 12 for 11.98, postpaid, excepting New Dawn and Blaze. 2-yr. No. 1

Grade.

A3443—New Dawn. The original hardy Everblooming Climber. Blooms 4" across with pointed buds. Rapid growing; sturdy canes. Apple-blossom pink with old rose fragrance. Blooms all summer! 1.25 each; 3 for 3.49, ppd.

A3445—Paul's Scarlet. Most popular climber. Flower big, full tea rose type. Lots of blooms! Shiny, rich green foliage is free from mildew.

A3446—Primrose. The beautiful, hardy, yellow climber with shiny green leaves and very large flowers.

A3447—Climbing Prosperity. The best white climbing rose. Great clusters of flowers on strong, fast growing

ters of flowers on strong, fast growing plant. Unlike most climbers, blooms year planted as flowers on new wood.

#### **Climbing Rose** Bargain

A2510X—This has long been a favorite collection of beautiful climbers.

- 1-Paul's Scarlet
- l—Climbing American Beauty
- 1-Crimson Rambler

know of anything like them We believe the Brownells

We believe the Brownells are more vigorous, live longer, bloom more abundantly and are easier to grow, because they have been bred back to hardy species. Every Brownell Rose is a Patented Rose, yet you will find the prices are as low or lower than most of the other patented roses on the market.

Look at the beautiful Brownells pictured at the left and we believe you will agree. Brownell Roses are second to none.

A3428 - Crimson Rambler. Mildew-proof. Great clusters of double, bright red blossoms.

A3427--Climbing American Beauty. Blooms look exactly like the hot-house namesake. Big, rose-pink, fragrant flow-ers on long, wiry stems.

A3426—Patented Climber Blaze. Same brilliant red as Paul's Scarlet but blooms both spring and fall. 1.25 each, postpaid.

#### **FLORIBUNDA** Roses

Bushy plants covered with clusters of large, double roses just like regular Tea Roses. Brilliantly colored blooms cover the bushes from spring until frost. Use in rose bed, for borders, among evergreens or shrubs, or in any place you want a splash of color all summer.

double, 2-inch flowers like camellias. Bright orange

# These Are All LARGE-FLOWERED CANNAS

Here are the LARGE-FLOWERED Cannas-the newer and better onesthat will make your vard the envy of all your neighbors. If you are looking for brilliant colors and attractive foliage, these are the ones you should plant. You just can't beat them.

Cannas are very easy to grow. Set the roots four inches deep and one and one-half to two feet apart. Al ways locate your bed where there is plenty of sunshine and in rich, welldrained soil. Then give them plenty of moisture. Store the roots over the winter in your basement or cave.

YOUR CHOICE—Each Variety Labeled: 24c each; 3 for 65c; 6 for 98c; 9 for 1.39, postpaid.

BG26-RED KING HUMBERT. One of the grandest Cannas ever offered. Large heart-shaped leaves crowned with immense heads of orchid-like, velvety orange-scarlet blossoms. Grows to 4 ft.

BG21—PINK GEM. A beautiful new, large pink with attractive green foliage. A few of these will add real beauty to your garden this season. 4 feet.

BG27—CITY OF PORTLAND. One of the most popular of the Pinks. A fast grower with an abundance of rosy pink blooms. This is the tall stately pink which is so popular. Green foliage. 5 feet.

BG32—FIREBIRD. Deep red blooms with glistening petals so firm and showy. Green foliage. You'll find this different from all others. 4 feet.

BG34—KING MIDAS. You'll like the large, pure golden flowers and rich green leaves of this variety. Fine for border planting. 3 feet.

Some as large as dinner plates: Values up to \$1.00 each, but now you can en joy these Aristocrats at a real saving. You'll be amazed at their and beauty. Varieties not labeled.

Trial Dahlia Bargain (5 bulbs) 1.49; 2 Bargains (10 bulbs) 2.79, postpaid.

DAHLIAS

1095 — Unwin's Dwarf Hybrids. Enjoy the wide variety of colors the very first year. You'll be thrill-

ed at their beauty. Pkt. 12c; 2 for 19c.

w Them From Seed

#### **How to Grow Dahlias** Our Dahlias need nothing but

average garden care. They appre ciate well-drained soil and full sunshine. Plant them when the ground warms up. Stake the tallgrowing ones when you plant; the foliage soon will hide the stakes. Set your Dahlias 2 to 4 ft. apart, depending upon how thick you want them. For really large blooms, disbud. Of course the miniatures and pompons should be allowed to bloom freely. In the fall, after a frost, dig the bulbs and store them in a root cellar or your base nentjust like you store potatoes.

#### **BALL DAHLIAS**

Now you can have the showlest and most popular Dahlias of them all—the Ball The plants are very Dahlias. The plants are very easy to grow and have loads of perfectly formed flowers. In fact the flowers are so perfect, and uniform in shape, they look as if they were made by a most accurate machine. Unusually nice for bouquets. BG77—PINK BALL. A fine pink.

BQ79—RED CHIEF. Showy red.

BG85 - YELLOW DUKE. Unusual yellow. BG81 — BONNIE BLUE. Our best blue. BG87-STORM KING. Your choice of the dahlias described at left: 45c ea.; any 3 for 1.10, postpaid.

This straight Merion Blue Grass will give you that extra heavy, dark green turf you have always wanted. Plant one pound to 750 square feet. 1 lb. 3.98; 3 lbs. 11.25; 5 lbs. 18.25, all postpaid. Absolutely the k word in Blue Grass. Order yours now while we have

## SUNSHINE MIXTURE

Kentucky Blue Grass with Red Top and Rye Grass added for nurse crops to give you a quick early lawn. Enriched with Red Fescue, White Dutch Clover and other Grasses to provide permanency and rich green-

Early spring is a wonderful time to start a lawn Latter August and September also good. Sow seed evenly, roll thoroughly and water liberally. Remember the earlier you can sow in the spring, the better the results will be. 1 lb. 1.29; 3 lbs. 3.69; 5 lbs. 5.95; 10 lbs. 11.65, postpaid.

#### New HIGHLAND BENT GRASS

Everybody likes Bent Grass for lawns. This is the creeping variety and is hardier and more drouth-resistant than any other we know of. Bent Grass does require more care and more moisture than other types of lawn seed but is well worth the cost and trouble because of its unusual beauty. 1 lb. 1.39; 3 lbs. 3.89; 5 lbs., 6.25, postpaid.

PER LB. POSTPAID. 1.39

8.19, postpaid.

#### WHITE DUTCH CLOVER

This is the 3- and 4leaved lawn clover. It is hot weather-resistant; grows nicely and quickly from seed. It is also an excellent pasture grass; use 5 lbs. per acre for pasture. Add 1 lb. to every 5 lbs. of Blue Grass if you want to improve the beauty of your lawn, or sow alone in the lawn the rate of 1 lb. per 1,000 square ft. Roll it in. 1/4 lb. 49c; 1 lb. 1.45; 3 4 15. PER LB. POSTPAID. 1.45

# Gurney's CAPITAL MIXTURE

Best lawn mixture for the Northwest. Especially blended with plenty of Kentucky Blue Grass, Fescues, Annual and Perennial Rye Grasses. Best mixture known for places where rainfall is light and artificial watering impossible.

To be sure of a good stand of this seed, ground firmly after the seed is planted. 1 lb. 1.19; 3 lbs. 3.39; 5 lbs. 5.45; 10 lbs. 10.65. All postpaid.

# A GURNEY LAWN Is Easy to Make

Preparation of the ground for a new lawn is important. You should first plow or spade deeply. Level off the entire area to be planted and rake to remove sticks and trash, stones,

After raking smooth—Roll the lawn thoroughly. This allows you to plant the sed more evenly, which means a saving to you, plus providing a firmer seed bed.

After rolling—Sow the seed, generally using 1 lb. of lawn seed to every 200 to 250 sq. ft.

After seeding—Again rake the lawn carefully to work the seed slightly into the soil. Don't bunch the seed as you rake.

rake.

After this raking—Roll your lawn, using a lawn roller or packer. This is important.

Your lawn is now planted and the only care after this is to keep it well-watered (each day) for the next 2 to 3 weeks. Moisture is necessary for proper germination.

# True Northern KENTUCKY BLUE GRASS

Finest Extra-Heavy Seed

Heavy seed means weed-free seed. Start your new lawn early this spring while you have plenty of moisture. Blue Grass is a slow starter, but once established it lasts for years. We have true Northern-grown, Northern-harvested Kentucky Blue Grass of ex-treme hardiness. Use 1 lb. for 200 square ft., rolled in. Supply very short—order early. 1 ib. 1.35; 3 ibs. 3.85; 5 ibs. 6.25; 10 lbs. 11.95, postpaid.

S.L.B. BAG POSTPAID ........6.25

#### SHADY SPOT MIXTURE

We all know it is hard to grow good lawn grass under trees and in the shade. Where the lawn is shaded one-third the time or more, Gurney's Shady Spot Lawn Mixture is the grass to use. Very similar to the famous Sunshine Mixture, except it contains ample Fescue for the shady spots. Sow 1 lb. to every 200 square ft. Get it in early and roll thoroughly into the ground. 1 lb. 1.29; 3 lbs. 3.69; 5 lbs. 5.95; 10 lbs. 11.65, postpaid.

3-LB. BAG POSTPAID ........3.69

# Gurney's NEW! GREEN CARPET LAWN MIX

This is the mixture you should plant if you really want a fine permanent lawn-and This is the mixture you should plant it you really want a line permanent have and want one quick. We've mixed in plenty of Kentucky Blue Grass along with Rye Grasses and Fescue to give you a rich permanent lawn you can be proud of. Lots of it planted around Yankton last year and folks just can't say enough for this thrifty yet fine lawn mixture. Plant 1 lb. to 225 sq. ft. and seed early as possible. 1 lb. 98c; 3 lbs. 2.69; 5 lbs. 4.29; 10 lbs.

# BRILLIANT

1 Pink 1 White 1 Purple 1 Yellow

1 Bronze

1 EACH of ALL 6 for only

### BARGAIN

No. B3116X—These fine varieties grow to 2½ ft. wide and 2 ft. tall. Each a brilliant mass of color from late August until freezing time. Exceptionally hardy and easy to raise. Give them a little winter protection as you would any other perennial, and they last for years. It's hard to realize that one single plant often has up to 1000 heautiful, double blossoms on it all at one time.

one time.

Our Blaz-O-Mums have been among the most popular of all the hardy, outdoor types. We know you will like the mass of color they will add to your flower garden.

Beautiful, Useful

"Pillar Type" Trees
A2733X—This is the tall
stately tree used so much for
avenue or background planting, as a tall screen, to mark
a lot line, as sentinels by
the yard entrance, to line a
driveway. They form tall, stately columns of
dark, shiny-green leaves. Succeed on soil too
poor for other trees, and grow rapidly. One
reason they are so good for a screen or windbreak is that their foliage grows close to the
ground.

FREE GIFT-1 Dwarf Blue Arctic Willow Shrub.
